## CHAPTER 1 INTERPRETATION

### Definitions

1. In this By-law, unless the context indicates otherwise, any word or expression to which a meaning has been assigned in the Western Cape Land Use Planning Act, 2014 (Act 3 of 2014) has the meaning assigned to it in that Act and—

“**ancillary**” means a land use, purpose, building, structure or activity which is directly related to, and subservient to, the lawful dominant use of the property;

“**antenna**” means any system of wires, poles, rods, reflective surfaces or similar devices, used to transmit or receive electronic communication signals or electro-magnetic waves;

“**applicant**” means a person who makes application in terms of the Planning By-law;

“**atrium**” means a covered courtyard that—

- (a) comprises a void within a building that extends for one or more floors in height that contains a floor and roof or ceiling; and
- (b) does not contain floors that penetrate into the void;

“**average ground level**” means the average of the highest and lowest existing ground levels immediately abutting the external elevational plane or wall cutting into the ground of a building or vertical division of a building, and the Municipality may:

- (a) determine the average ground level from measurements supplied on a building plan; or
- (b) deem a level to be the average ground level based on measurements interpolated from a contour plan, local height benchmark or other information held by the Municipality; or
- (c) require the owner or applicant to commission a registered surveyor to measure levels of the ground or interpolate levels, in order to provide the Municipality with sufficient information so that it can determine the average ground level for the purpose of administering this By-law;

“**balcony**” means a floor projecting outside a building at a level higher than that of the ground floor, enclosed only by low walls or railings or by containing walls of rooms abutting the projecting floor, and may include a roof over the projecting floor and pillars supporting the roof;

“**bar**” refer to definition of pub;

“**base level**” of a building means an imaginary plane drawn horizontally at the average ground level of the building, or vertical division of the building, is directly above or on top of the ceiling of any basement;

“**base zone**” means the zone that determines the lawful land use and development parameters for a land unit in terms of this zoning scheme, before the application of any overlay zone;

“**basement**” means that portion of a building with a ceiling level which does not protrude more than one metre at any point above natural ground level excluding excavations required for access purposes;

“**boundary**” in relation to a land unit means one or more of the cadastral lines separating the land unit from another land unit or from a road reserve;

“**boundary wall**” means any wall, fence or enclosing structure erected on or directly next to a cadastral property boundary, including entrance gates and doors;

“**braai room**” means a room that is part of the main dwelling or outbuildings and that is used primarily for entertainment purposes and where food and drinks may be prepared, but excludes a kitchen;

“**building**” without in any way limiting its ordinary meaning, includes—

- (a) a roofed structure;
- (b) an external stair, step or landing of a building and any gallery, canopy, balcony, stoep, verandah, terrace, porch or similar feature of a building;
- (c) a wall or railing enclosing any feature referred to in paragraph (b); and
- (d) any other portion of a building;

“**building line**” means an imaginary line on a land unit, which defines a distance from a specified boundary, within which the erection of buildings or structures are completely or partially prohibited;

“**cadastral line**” means a line representing the official boundary of a land unit as recorded on a diagram or general plan approved by the Surveyor-General and registered in the Deeds Office;

“**canopy**” means a cantilevered or suspended roof, slab or covering projecting from the wall of a building, excluding the floor of a balcony;

“**CapeNature**” means the Western Cape Nature Conservation Board established in terms of the Western Cape Nature Conservation Board Act, 1998 (Act 15 of 1998);

“**caravan**” means a vehicle that has been equipped or converted for living and sleeping purposes and that can readily be moved;

“**carport**” means a structure for the storage of one or more vehicles that is covered by a roof, provided that not more than two sides may be permanently enclosed;

“**carriageway crossing**”, in relation to a motor vehicle carriageway crossing, means an entrance or exit way, or a combined entrance and exit way, from a land unit to a road;

“**commercial**”, in relation to a use right, means a use right for the express purpose of making a profit with no or limited social or charitable objectives;

“**common boundary**”, in relation to a property, means a boundary common with the adjoining property other than a street boundary;

“**Council**” means the municipal council of the Municipality;

“**coverage**” means the area of a land unit that is covered by buildings, expressed as a percentage of the total area of such land unit, and shall include all roofed areas; provided that the following portions of buildings shall be disregarded in the calculation of coverage:

- (a) open stoeps, entrance steps and landings, open balconies, and retractable awnings;
- (b) cornices, chimney breasts, pergolas, flower boxes, water pipes, drainpipes and minor decorative features not projecting more than 500 millimetres from the wall of the building;
- (c) eaves not projecting more than 1,0 metres from the wall of the building; and
- (d) a basement, provided that the basement ceiling does not project above the ground level;

**“deemed zoning”** means the zoning of a land unit which the Municipality deems it to have in circumstances where no formal zoning determination or rezoning was previously done;

**“dominant use”** means the predominant or major lawful use of a property, and may consist of primary uses, consent uses or other lawful uses permitted on the property;

**“dwelling unit”** means a self-contained, inter-leading group of rooms —

- (a) with not more than one kitchen, used for the living accommodation and housing of one family, together with such outbuildings as are ordinarily used with a dwelling unit; and
- (b) does not include domestic staff quarters, tourist accommodation or accommodation used as part of a hotel;

**“eave”** means a portion of a roof projecting beyond the face of a building, including any gutters;

**“earth bank”** means land that is shaped to hold back earth or loose rock;

**“ecosystem”** means a self-sustaining and self-regulating community of organisms and the interaction between the organisms with one another and with their environment;

**“encroachment agreement”** means an agreement between an owner and the Municipality relating to the projection of portions of a building or structure from the owner’s property onto or over the Municipality’s property;

**“entrance steps and landings”** means steps and landings to a building, including any low walls and railings, if the steps and landings are not within the main containing walls of the building;

**“environmental management plan”** means a plan that documents the management of site preparation, construction or operations affecting an environmental resource or an environmentally significant place, its environmental values or management requirements, or both as per the requirements of the relevant environmental legislation;

**“erection”** in relation to a building or structure includes—

- (a) the construction of a new building or structure;
- (b) the alteration or conversion of, or addition to, a building or structure; and
- (c) the re-construction of a building or structure which has completely or partially been demolished;

**‘erf’** has the same meaning as ‘land unit’;

**“existing ground level”** means the various levels of the land surface on a land unit:

- (a) in its unmodified state, before any building had been erected or alterations in levels had been made thereon; or
- (b) as established from a plan indicating the contours of the land lodged with and accepted by an official agency such as the municipality or a government department, which depicts the existing level of the ground at or before the commencement date; or
- (c) in a state which has been graded, with the Municipality’s approval, for the purpose of development; or
- (d) as determined by the Municipality, if in its opinion it is not possible to ascertain the existing level of the ground due to irregularities or disturbances of the land; and the Municipality may require the owner or applicant to commission a registered surveyor to measure levels of the ground or interpolate levels, which shall be tied to the

National Control Network, or where this is not possible, to provide at least two fixed reference marks suitably located, in order to provide the Municipality with sufficient information so that it can determine the most appropriate existing ground level for the purpose of administrating this By-law;

**“family”** means—

- (a) one person maintaining an independent household; or
- (b) two or more persons related by blood, marriage or civil union maintaining a common household; or
- (c) not more than five unrelated persons without dependents maintaining a common household;

but does not exclude up to six foster children, or dependents under legal guardianship as part of a household;

**“flood-prone area”** means any land area susceptible to being inundated by water from any source;

**“floor”** means the inner, lower surface of a room, garage or basement, and includes a terrace or atrium to which the occupants of a building have access;

**“floor factor”** means the factor, expressed as a proportion of 1, which is prescribed for the calculation of the maximum floor space of a building or buildings permissible on a land unit; If the floor factor is known, the maximum permissible floor space can be calculated by multiplying the floor factor by the area of the land unit;

$$\text{Maximum floor space} = \text{(Floor factor)} \times \text{(Area of the land unit)}$$

**“floor space”**, in relation to any building, means the area of a floor which is covered by a slab, roof or projection; provided that—

- (a) any basement or part of a basement not intended as habitable space shall be excluded;
- (b) any area which is reserved solely for parking or loading of vehicles is excluded;
- (c) external entrance steps and landings, a canopy, a stoep and an area required for external fire escapes are excluded;
- (d) a projection, including a projection of eaves, and a projection which acts as a sunscreen or an architectural feature, which projection does not exceed 1 metre beyond the exterior wall or similar support, is excluded;
- (e) any uncovered internal courtyard, light well or other uncovered shaft which has an area in excess of 10 m<sup>2</sup> is excluded;
- (f) any covered paved area outside and immediately adjoining a building at or below the ground floor level, where such paved area is part of a forecourt, yard, external courtyard, pedestrian walkway, parking area or vehicular access, and which is permanently open to the elements on at least the front or long side, is excluded;
- (g) any covered balcony, verandah or terrace which, apart from protective railings, is permanently open to the elements on at least the front or long side, and which does not exceed 2,5 metres in width, is excluded;
- (h) subject to paragraph (i), any stairs, stairwells and atriums that are covered by a roof are included;
- (i) in the case of multi-level buildings, any stairwells, lift wells, light wells or other wells, and any atrium, are only counted once; and provided further that—
  - (i) floor space is measured from the outer face of the exterior walls or similar supports of the multi-level building; and
  - (ii) the total floor space is the sum of the floor space of all the levels of the multi-level building, including that of any basement;

**“garage”** means a building for the storage of one or more motor vehicles, but does not include a motor repair garage or service station;

**“GLA”** means gross leasable area being the total floor space designed for, or capable of, occupancy or control by tenants, measured from the centre line of the joint partitions to the inside finished surface of the outside walls, but excludes the following:

- (a) public toilets, internal walkways, lift shafts, service ducts, interior parking and loading bays; and
- (b) areas reasonably used in connection with the cleaning, maintenance and care of the building, excluding dwelling units for caretakers, supervisors, cleaners or maintenance staff;

**“greenhouse”** means a structure with the sides primarily made of a transparent material such as glass, perspex or plastic for the purpose of growing of plants or hastening growth of plants under controlled environmental conditions;

**“ground floor”** means the lowest floor of a building that is not a basement and is positioned on the base level of a building or vertical division;

**“ground level”** means the same as “natural ground level”;

**“gross density”** means a measure of the number of dwelling units in a specified area, and is calculated as follows:

$$\text{Gross dwelling density (units per hectare)} = \frac{\text{Total number of dwelling units in a specified area}}{\text{Extent of specified area in hectares;}}$$

**“group housing site”** means one or more land units on which a group housing scheme or retirement resort may be erected;

**‘habitable space’** means space used, designed, adapted or intended to be used by persons for sleeping in, living in, preparation or consumption of food or drink, transaction of business, rendering of any services, manufacturing, processing or sale of goods, performance of work, gathering together of persons or for recreational purposes;

**“hazardous substance”** has the same meaning as “grouped hazardous substance” as defined in section 1 of the Hazardous Substances Act, 1973 (Act 15 of 1973);

**“height”** of a structure means a vertical dimension of the structure from the natural ground level to the wall plate or, in the case of a pitched roof, the ridge of the roof or the highest point of a building, measured in metres, provided that—

- (a) the height of a structure does not include chimneys, flues, masts or antennae;
- (b) elevator motor rooms, ventilation shafts, water tanks, air conditioning plant and equipment on top of a building are included when determining the height of a structure;
- (c) satellite dishes not exceeding 1.5 metres in diameter and external geysers with associated equipment not protruding more than 1.5 metres above the top of the roof shall not be included for the purpose of height control; and
- (d) the general provisions regarding these aspects in this By-law also apply;

**“kitchen”** means a room or part of a room equipped for preparing and cooking meals and excludes a braai room, food and drink preparation area or bar facilities in an entertainment area;

**‘land unit’** means a portion of land registered or capable of being registered in a deeds registry and includes a servitude right or lease;

**“natural ground level”** means—

- (a) the level of the land in its unmodified state; or
- (b) when altered with the municipality’s approval for the purpose of development, the municipality may approve such altered ground level as the natural ground level, subject to Section 40;

**“noise level”** means a reading on an integrated impulse sound level meter taken in accordance with accepted scientific principles as described in applicable legislation;

**“non-conforming use”** means an existing land use that was lawful in terms of previous zoning scheme but that does not comply with this zoning scheme;

**“occupant”** means any person who physically inhabits a building, a structure, or a land unit;

**“occupational health and safety law”** means the Occupational Health and Safety Act, 1993 (Act 85 of 1993), or municipal by-laws governing occupational health and safety, whichever is applicable;

**“outbuilding”** means a structure, whether attached or separate from the main building that is normally ancillary and subservient to the main building on a land unit, and includes a building designed to be used for the garaging of motor vehicles, and any other normal activities in so far as these are usually and reasonably required in the connection with the main building, but does not include a second dwelling;

**“outdoor advertising”** means the act or process of notifying, warning, informing, making known or any other act of transferring information in a visible manner and that takes place out of doors;

**“overlay zone”** means a category of zoning that applies to a particular area, land or land units in addition to the base zoning and that—

- (a) stipulates development parameters or use rights that may be more or less restrictive; and
- (b) may include provisions and development parameters relating to—
  - (i) primary or consent uses;
  - (ii) subdivision and subdivisional areas;
  - (iii) development incentives;
  - (iv) density limitations;
  - (v) urban form or urban renewal;
  - (vi) heritage and environmental protection;
  - (vii) management of urban growth;
  - (viii) scenic drives; coastline setbacks;
  - (ix) any other purpose as set out in this zoning scheme;

**“owner”** means the person registered in a deeds registry as the owner of land or who is the beneficial owner in law;

**“package of plans”** means the hierarchy of plans specified in terms of this By-law;

**“parapet”** means a low projection, wall or moulding that finishes the uppermost edge of a building with a flat or low-pitched roof;

**“parking bay”** means an area clearly outlined and demarcated for the parking of one motor vehicle and may be provided in the form of a garage or carport which is accessible for easy and safe vehicle movement;

**“pergola”** means any unroofed horizontal or approximately horizontal grille or framework and associated vertical support structure and of which the area in the horizontal projection of its solid portions does not exceed 25% of the total area thereof;

**“Planning By-law”** means the Planning By-law adopted by the Municipality;

**“planning law”** means the Spatial Planning and Land Use Management Act, 2013 (Act 16 of 2013), Land Use Planning Act, Land Use Planning Ordinance, 1985 (Ordinance 15 of 1985), the Planning By-law or succeeding legislation governing land use planning in the Western Cape, whichever is applicable;

**“plaza”** means an urban open space or square, primarily designed for outdoor use by pedestrians;

**“policy plan”** means a policy adopted by the Municipality, structure plan, spatial development framework or other policy plan approved in terms of planning law;

**“porch”** means a roof (not being the floor of a balcony) projecting from the outside of a building above a doorway, and forming a covered entrance to such building, and includes any paved area thereunder, and any low walls or railings enclosing such paved area, and any pillars supporting such roof;

**“porte cochères”** means a covered entrance large enough for vehicles to pass through, typically opening into a courtyard or a porch where vehicles stop for passengers to get out of the vehicle;

**“precinct plan”** means a plan, approved by the Municipality, as envisaged in this By-law as a component of a package of plans;

**‘premises’** means any shop or restaurant within a building that is not linked in any manner or way with another shop or restaurant in the same building;

**“previous zoning scheme”** means a zoning scheme or town planning scheme referred to in section 33(1) or (2) of the Land Use Planning Act;

**“primary use”** in relation to property means any land use specified in this By-law as a primary use, being a use that is permitted within a zoning without the need to obtain the Municipality’s approval;

**“property”** means land together with any improvements or buildings on the land;

**“provincial road”** means a road that is under the jurisdiction of the provincial roads authority;

**“protected area”** means a protected area as defined in section 1 of the National Environmental Management: Protected Areas Act, 2003 (Act 57 of 2003);

**“public authority”** means an organ of state;

**“public nuisance”** means any act, omission or condition which, in the Municipality’s opinion is offensive, injurious or dangerous to health, materially interferes with the ordinary comfort, convenience, peace or quiet of the public, or which adversely affects the safety of the public, having regard to the reasonableness of the activities in question in the area concerned, and the impacts which result from these activities;

**“public place”** means any open or enclosed place, park, street, road or thoroughfare or other similar area of land shown on a general plan or diagram that is for use by the general public, is owned by (or vests in the ownership of) a municipality, and includes a public open space and a servitude for any similar purpose in favour of the general public;

**“public road”** means any highway, thoroughfare, lane, footpath, sidewalk, alley, passage, bridge or any other place of a similar nature or any portion thereof serving as a public right of way, whether for vehicles or pedestrians, established or proclaimed in terms of the former Municipal Ordinance, 1974 (Ordinance 20 of 1974) or any equivalent current municipal by-law and/or national legislation and includes a public street;

**“public street”** means any land indicated on an approved plan, diagram or map as having been set aside as a public thorough way for vehicles and pedestrians, of which ownership as such vests in the Municipality in terms of the relevant Planning Law, or in terms of any other law;

**“refuse room”** means a defined screened refuse receptacle from where refuse is collected, usually on a weekly basis;

**“registered land surveyor”** means a professional land surveyor, registered in terms of the Geomatics Profession Act, 2013 (Act 19 of 2013);

**“retaining structure”** means a wall or structure constructed to hold back earth or loose rock;

**“road”** includes a public street or a private road;

**“road reserve”** means the designated area of land that contains a public street or private road (including the road and associated verge), which land may be defined by cadastral boundaries;

**“satellite dish antenna”** means apparatus fixed to a structure or mounted permanently on the ground and that is capable of receiving or transmitting communications from a satellite;

**“scenic drive”** means a public street designated as a scenic drive by the Municipality in recognition of the high visual amenity alongside that public street, including background vistas of a mountain, open country, a coastline or a town;

**“service yard”** means a defined screened area providing utility services for, amongst others, general residential developments which include facilities such as washing lines;

**“shipping or transport container”** means a large, weatherproof container used for the transport of goods by sea, rail or road and that is usually stored in the open when not in use;

**“sign”** means any sign, sign-writing, mural, graphic design, signboard, screen, blind, boarding or other device by means of which an advertisement or notice is physically displayed, and includes any advertisement, object, structure or device that is in itself an advertisement or which is used to display an advertisement;

**“site development plan”** means a scaled and dimensioned plan which shows development details such as (but not limited to) site layout, positioning of buildings and structures, property access, building designs and landscaping of the proposed development;

**“spatial development framework”** refers to a provincial spatial development framework, a provincial regional spatial development framework, or a municipal spatial development framework or municipal local spatial development framework;

**“stoep”** means an uncovered paved area or projecting floor outside and immediately adjoining a building, at or below the level of the ground floor of the building, and includes any low walls or railings enclosing the paved areas or floors;

**“storm water”** means water resulting from natural processes, the precipitation or accumulation of the water, and includes groundwater and spring water ordinarily conveyed by the storm water system, as well as sea water within estuaries, but excludes water in a drinking-water or waste-water reticulation system;

**“storm water system”** means constructed and natural facilities, including pipes, culverts and water courses, used or required for the management, collection, conveyance, temporary storage, control, monitoring, treatment, use or disposal of storm water;

**“street boundary”** means the boundary between a land unit and a public street or private road;

**“street centreline setback”** means the line delimiting the area measured from the centre line of a particular public street, within which no building or other structure, including a boundary fence, may be erected;

**“structure”** without in any way limiting its ordinary meaning, includes any building, shelter, wall, fence, pillar, tower, pergola, steps, landing, terrace, sign, ornamental architectural feature, swimming pool, fuel pump or underground tank, any building ancillary to service infrastructure provision, and any portion of a structure;

**“tavern”** refer to definition of pub;

**“terrace”** means an area to which occupants of a building have access, created on a flat roof over a portion of the building, resulting from the setting back of part of the building above that portion;

**“top of the roof”**, for the purpose of height control, means the top of the roof ridge in the case of a pitched roof, or the top of the parapet where the parapet extends above the roof;

**“total floor space”** of a building means the sum of the floor space of all the levels of a particular building, including basements;

**“used”** in addition to its ordinary meaning, includes “designated or intended to be used”;

**“verandah”** means a covered area (not being an area that is part of a yard or parking area) or projecting floor outside and immediately adjoining a building at or below the level of the ground floor of the building, and includes both the covered area or floor and the roof or other feature covering it, as well as any low walls or railings enclosing the covered area or floor;

**“vertical division”** of a building means a portion of the building bounded by external and/or internal walls, with or without openings, which portion is by design clearly identifiable as a logical vertical component from other portions of the building. The Municipality may deem

that a building is divided into vertical divisions, where every such division shall have a separate base level for the purpose of administrating this zoning scheme;

**“wall plate”** means the lowest point of a longitudinal member, bar, rafter, beam, truss, bracket, pillar, post, structure or any other similar device, as determined by the Municipality, which supports a roof;

**“watercourse”** means –

- (a) a river, spring, stream, channel or canal in which water flows regularly or intermittently;
- (b) a vlei, wetland, dam, or lake into which or from which water flows; and
- (c) includes the bed and banks of a watercourse;

**“youth hostel”** means a place providing affordable accommodation, aimed mainly at young tourists;

**“zoning”** includes base zoning and overlay zoning;

**“zoning scheme”** means a land use scheme as defined in section 1 of the Spatial Planning and Land Use Management Act and includes the components referred to in section 4 of this By-law.

## **CHAPTER 2 ZONING SCHEME, USE ZONES AND USES**

### **Application of zoning scheme**

2. The zoning scheme applies to the entire municipal area.

### **Purpose of zoning scheme**

3. The purpose of the zoning scheme is to—
  - (a) enable implementation of the municipal spatial development framework;
  - (b) make provision for orderly development and the welfare of the community; and
  - (c) determine use rights and development parameters, with due consideration of the principles referred to in the Land Use Planning Act.

### **Components of zoning scheme**

4. The zoning scheme consists of the following components:
  - (a) this By-law;
  - (b) the zoning scheme map; and
  - (c) the register.

### **Use zones**

- 5.(1) The municipal area is divided into the use zones referred to in column 1 of the table set out in Schedule 1.
- (2) The purpose of each use zone is set out in column 1 of the table set out in Schedule 1.
- (3) The description of the primary and consent uses applicable to each use zone is set out in Schedule 2.
- (4) The location, boundaries and extent of each use zone is depicted on the zoning scheme map.

- (5) The primary and consent uses applicable to each use zone are subject to the development parameters specified for the land use applicable to each use zone as set out in Schedule 2.

### **Zoning scheme map**

- 6.(1) The zoning scheme map depicts—
- (a) the zoning of land in accordance with the use zone in which the land is located; and
  - (b) overlay zones, if applicable to the land.
- (2) The Municipality must update the zoning scheme map within a reasonable time after use rights have been granted or have lapsed.
- (3) The Municipality may keep the zoning scheme map in an electronic format.
- (4) The Municipality may provide an extract of the zoning scheme map to members of the public on payment of a fee determined by the Municipality in terms of the Municipality's tariff policy.

### **Transition to new use zones and savings**

7. (1) Upon the date of commencement of this By-law, land that is zoned in terms of the previous zoning scheme is translated or reclassified to one of the use zones referred to in section 5.
- (2) Translation or reclassification of the use zones used in previous zoning regulations to the use zones used in this By-law was done primarily by determining the closest match for each corresponding use zone. In individual cases where existing land use or other characteristics rendered the aforementioned match not suitable, individual assessments were undertaken to determine the appropriate new use zone (see Schedule 4, Zoning Transition Table).
- (3) Despite the translation or reclassification of the use zones used in the previous zoning scheme to the use zones used in this By-law—
- (a) any condition of approval or validity period that is applicable to a land unit in terms of the previous zoning scheme applicable immediately before the coming into effect of this By-law, remains applicable and in so far as it determines development parameters that are different from the development parameters applicable in terms of this By-law, it is not to be considered an offence but a lawful non-conforming use;
  - (b) the Municipality must record any condition of approval referred to in paragraph (a) in the register together with any applicable validity period applicable to the zoning in terms of the previous zoning scheme;
  - (c) a zoning approved in terms of the previous zoning scheme that has been exercised within its validity period, cannot lapse, and is translated or reclassified as determined in this By-law;
  - (d) a zoning approved in terms of the previous zoning scheme that has not been exercised, lapses after the expiry of the validity period applicable to that zoning in terms of the previous zoning schemes;
  - (e) in the event of the lapsing of a zoning as contemplated in paragraph (d), the land unit reverts back to the use zone applicable to it in terms of the previous zoning scheme, before it was rezoned and is translated or reclassified as determined in subsection (2);
  - (f) a building plan application that was formally submitted and accepted immediately before the coming into effect of this By-law and which is still being processed must be assessed in accordance with the previous zoning scheme.

- (g) any rezoning or consent use application which was submitted prior to the date of coming into effect of this By-law, must be finalized in terms of the previous zoning scheme, and thereafter is translated or reclassified as determined in subsection (2).

#### **Rectification of errors on zoning scheme map**

- 8.(1) If the zoning of a land unit is incorrectly indicated on the zoning scheme map, the owner of an affected land unit may submit an application to the Municipality to correct the error.
- (2) An owner contemplated in subsection (1) must apply to the Municipality in the form determined by the Municipality and must—
  - (a) submit written proof of the lawful land use rights; and
  - (b) indicate the correct zoning that should be allocated.
- (3) The onus of proving that the zoning is incorrectly indicated on the zoning scheme map is on the owner.
- (4) The owner is exempted from paying application fees and public participation costs.
- (5) If the zoning of a land unit is incorrectly indicated on the zoning scheme map, the Municipality must record and amend the zoning scheme map to reflect the correct zoning.
- (6) If the correct zoning of a land unit cannot be ascertained from the information submitted to the Municipality or the records of the Municipality, the zoning must be determined in terms of the Planning By-law and the zoning as determined must be recorded on the zoning scheme map.
- (7) In the event that any person identifies an error on the zoning map; the Municipality must—
  - (a) inform the owner of the affected land unit of the error;
  - (b) investigate and indicate the correct zoning that should be allocated;
  - (c) follow a public participation process;
  - (d) submit an amended zoning scheme map to Council for adoption; and
  - (e) amend the zoning register and map accordingly.

#### **Zoning scheme register**

9. The Municipality—
  - (a) must record all departures, consent uses or other permissions granted and non-conforming uses in the register;
  - (b) may keep the register from the date of commencement of the zoning scheme in an electronic format; and
  - (c) must make the register available to members of the public for viewing.

#### **Primary uses**

10. Primary uses of land permitted in each use zone, without the Municipality's consent, are listed in the corresponding part of column 2 of the table set out in Schedule 1.

#### **Additional use rights**

11. An activity or use described as an additional use right in a particular zoning is permitted in that zoning without the approval of the Municipality, provided that any condition or further provisions specified for such activity or use are adhered to. The additional use rights are listed in the corresponding part of column 2 of the table set out in Schedule 1.

**Ancillary uses**

12. An ancillary use is permitted where a primary use, approved consent use or other lawful use is exercised.

**Consent uses**

13. Consent uses of land permitted in each use zone, with the Municipality's prior consent in terms of the Planning By-law, is listed in the corresponding part of column 3 of the table set out in Schedule 1.

**Occasional uses**

- 14.(1) The Municipality must record the relevant information relating to a temporary departure for occasional uses applicable to a land unit in the register.
- (2) Approval of a use right as a temporary departure for an occasional use in terms of the Planning By-law must at least be subject to the development parameters applicable to the use right as stipulated in this By-law.

**Non-conforming uses**

- 15.(1) A non-conforming use does not constitute an offence in terms of this By-law.
- (2) A non-conforming use may continue as long as it remains otherwise lawful.
- (3) No additions or extensions to a non-conforming use is permitted.

**Deemed zoning of closed public places**

16. The zoning of land that was previously a public street or public open space, vested in or owned by the Municipality and that is closed, is determined as follows:
- (a) if the land is transferred to an abutting owner, that portion of the land falls in the same zone as that of the abutting land belonging to the abutting owner; or
  - (b) the Municipality must determine which zoning applies to the land if—
    - (i) the land is transferred to an abutting owner and that owner owns abutting properties falling into more than one zone; or
    - (ii) in any other case not provided for in this section.

**CHAPTER 3  
OVERLAY ZONES****Purpose of overlay zones**

- 17.(1) The Municipality may adopt, review or amend overlay zones for specific areas in the Municipality in accordance with the procedures stipulated in section 18 to—
- (a) give expression, in a planning context, to the local needs and values of the communities concerned; and
  - (b) promote particular types of development, urban form, landscape character, environmental features or heritage values.
- (2) The Municipality must determine development parameters for each area of an overlay zone.

### **Procedures for establishing, reviewing or amending overlay zones**

18. An overlay zone is adopted, reviewed or amended by the Municipality as an amendment of this By-law in accordance with sections 12 and 13 of the Municipal Systems Act, 2000 (Act 32 of 2000) and section 25 of the Land Use Planning Act.

## **CHAPTER 4 DISTANCES, HEIGHTS, LEVELS AND BOUNDARIES**

### **Measuring distances, heights and levels**

19. The following provisions apply regarding to the measuring of distances, levels or height:
- (a) If required by the Municipality, the owner or applicant shall appoint a registered land surveyor to supply or verify information necessary for the Municipality to make a decision about compliance with distances or levels required in terms of this by-law.
  - (b) Where reference is made or implied to the distance between boundaries or between a building and a boundary, this distance must be measured in the following manner:
    - (i) the boundary or boundaries and all points of the building shall be projected onto a horizontal plane, and all measurements shall be made in the plane; and
    - (ii) the distance between a point on a building and a boundary shall be measured at the shortest distance between the point and the boundary.
  - (c) Where reference is made to a portion of a boundary opposite a building, that portion shall be defined by drawing lines in a manner described in paragraph (b) from points on such building, at right angles to such boundary.
  - (d) Any post-construction deviation from a height restriction that does not exceed 300 mm will not be considered a contravention of the provisions of this zoning scheme, provided that this deviation provision does not apply for the purposes of making an application.
  - (e) If there is doubt about the height of a building or structure, the Municipality may require the owner to appoint a registered surveyor to:
    - (i) certify the actual height of the building or structure in accordance with the provisions of this zoning scheme;
    - (ii) certify if a building or structure is in contravention of the provisions of this zoning scheme; and
    - (iii) certify that all structures on the property comply with the height restrictions applicable to the property.
  - (f) Where reference is made to a distance, ground level, height of a point on a building or other measurement, then such distance, level or height shall be calculated in accordance with recognised geometric principles, and for the purposes of determining contours, from any data set held by the Municipality at or before the commencement date or any data set so determined by the Municipality. In any case where the distance, level or height involved is so irregular that calculation in accordance with these principles is impractical or leads to a result which is clearly not in accordance with the intent of the By-law, the Municipality shall determine the distance, level or height concerned for the purpose of administering this By-law.

### **Determining boundaries of use zones**

20. If uncertainty exists as to the boundaries of use zones, the following parameters apply in the order listed:
- (a) boundaries shown as following or approximately following any public street or road must be construed as following the street cadastral boundary;
  - (b) boundaries shown as following or approximately following any land unit boundary must be construed as following that boundary;

- (c) boundaries shown as following or approximately following natural features must be construed as following those features; and
- (d) in the event of further uncertainty as to the boundaries of a use zone, the Municipality must make a determination.

## **CHAPTER 5 ENFORCEMENT**

### **Offences, penalties and enforcement of By-law**

- 21.(1) Subject to section 15, no person may erect any building or structure or any part thereof—
- (a) except for a purpose permitted by this By-law and only in accordance with the applicable development parameters; or
  - (b) without first obtaining approval from the Municipality in terms of the Planning By-law.
- (2) A use not reflected as a primary or consent use for a particular use zone is not permitted in the use zone concerned, unless approved in terms of the Planning By-Law.
- (3) A Municipality must enforce the zoning scheme through the measures for enforcement provided for in the Planning By-law.

## **CHAPTER 6 DEVELOPMENT OF LAND**

### **Development parameters applicable to use rights**

- 22.(1) The land use descriptions and development parameters applicable to each primary and consent use right depicted in the table in Schedule 1 are described in Schedule 2.
- (2) Development parameters are applicable to use rights only and, notwithstanding the zoning of an erf, a specific use right has the development parameters as listed in Schedule 2, provided that the Municipality may grant a departure from the development parameters in terms of the Planning By-law.
- (3) Consent uses, listed in Column 3 of Schedule 1, shall be subject to the following conditions:
- (a) when a consent use is granted by the Municipality in a particular zone, the applicable land use must be supplementary to the primary use right allowed under the particular zone; and
  - (b) when land is intended to be utilised exclusively for a consent use in a particular zone which is a primary right in another zone, application must be made for rezoning to the zone where the applicable land use is a primary right.
- (4) No departure from the land use descriptions or definitions may be granted.
- (5) Notwithstanding subsections (1) and (2), the Municipality may determine any additional conditions in respect of a use right for a specific property as may be required in terms of any other applicable legislation.

## CHAPTER 7 GENERAL PROVISIONS

*This part contains general provisions and parameters that apply to all zones or to specific zones as may be provided for. It includes matters such as encroachments that may occur within building lines and requirements for site development plans. It refers to hazardous substances, owners' associations, screening, retaining structures, outdoor storage, antennae systems and other municipal By-laws. This part also contains requirements for parking, loading, access and infrastructure. There are also provisions relating to the subdivision of land.*

### **Encroachment of building lines**

- 23.(1) Notwithstanding the building line requirements set out in Chapter 6, the following structures or portions of structures may be erected within the prescribed building lines, provided they do not extend beyond the boundaries of a land unit:
- (a) boundary walls, screen walls, fences and gates; not exceeding 2,1 metres in height above the natural ground level, excluding where any such wall will result in infilling higher than 0,5 metres above natural ground level;
  - (b) open and uncovered stoeps that are less than 500 millimetres in height from the natural level of the ground;
  - (c) entrance steps, landings and entrance porches, excluding *porte cochères*;
  - (d) a covered entrance or gatehouse that has a roofed area not exceeding 5 m<sup>2</sup> and a roof height not exceeding 3 metres from the floor to the highest point;
  - (e) eaves and awnings projecting no more than 1 metre from the wall of a building;
  - (f) cornices, chimney breasts, flower boxes, water pipes, drainpipes and minor decorative features not projecting more than 500 millimetres from the wall of a building;
  - (g) swimming pools not closer than 1 metre from any boundary;
  - (h) a basement, provided that no part of such a basement projects above natural ground level;
  - (i) a refuse room required by the Municipality in terms of this By-law; and
  - (j) water storage tanks not exceeding the height of the boundary wall.
- (2) For the purposes of determining street boundaries, a street centreline setback and site access requirements, the boundary of a pedestrian way or service lane that cannot or will never be used by motor vehicles may be regarded as a common boundary.
- (3) The Municipality may permit an applicant not to submit an application for departure of a common building line only if the abutting neighbour gives written consent for the encroachment of the relevant building line.

### **Street centreline setback**

- 24.(1) The portion of a land unit falling within a street centreline setback area is excluded for the purpose of determining coverage and maximum floor space, unless the owner transfers the portion concerned to the Municipality free of charge. In such case, the portion must be included for the purpose of determining coverage or maximum floor space on a land unit.

### **Site development plans**

- 25.(1) In addition to the zones that specifically require a site development plan, the Municipality may require a site development plan in respect of the following development types:
- (a) shopping centres or shopping complexes;
  - (b) business or office park developments;
  - (c) industrial park developments;
  - (d) developments in conservation areas;

- (e) developments that will be sectionalised;
  - (f) incremental residential developments;
  - (g) major developments where there are concerns relating to urban form, heritage, traffic, the environment or planning; and
  - (h) any other development type that the Municipality may deem applicable/relevant.
- (2) The Municipality may require the following information to be depicted on a site development plan:
- (a) existing bio-physical characteristics of the property;
  - (b) existing and proposed cadastral boundaries;
  - (c) the layout of the property, indicating the use of different portions of the property;
  - (d) the massing, position, use and extent of buildings;
  - (e) sketch plans and elevations of proposed structures, including information about their external appearance;
  - (f) cross-sections of the site and buildings on site;
  - (g) the alignment and general specification of vehicle access, roads, parking areas, loading areas, pedestrian flow and footpaths;
  - (h) measures of access control to parking areas and reservation of parking areas;
  - (i) the position and extent of private, public and communal space;
  - (j) typical details of fencing or walls around the perimeter of the land unit and within the property;
  - (k) electricity supply and external lighting proposals;
  - (l) provisions for the supply of water, management of storm water, and disposal of sewage and refuse;
  - (m) external signage details;
  - (n) general landscaping proposals, including vegetation to be preserved, removed or to be planted, external paving, and measures for stabilising outdoor areas where applicable;
  - (o) the phasing of a development;
  - (p) the proposed development in relation to existing and finished ground levels, including excavation, cut and fill;
  - (q) statistical information about the extent of the proposed development, floor area allocations and parking supply;
  - (r) relationship of the proposed development to the quality, safety and amenity of the surrounding public environment;
  - (s) relationship of the proposed development to adjacent sites, especially with respect to access, overshadowing and scale;
  - (t) illustrations in a three-dimensional form depicting visual impacts of the proposed development on the site and in relation to surrounding buildings; and
  - (u) any other details as may reasonably be required by the Municipality.
- (3) The Municipality may require that the area covered by a site development plan must extend beyond the site under consideration if, in its opinion, the proposed development will have a wider impact.
- (4) The Municipality may determine the extent of the area covered by a site development plan.
- (5) An applicant must submit a site development plan to the Municipality if it is required in terms of this zoning scheme before any development on the relevant land unit may commence.
- (6) The Municipality may require amendments of detail to the site development plan to address reasonable concerns relating to access, parking, architectural form, urban form, landscaping, environmental management, engineering services or similar concerns.
- (7) The following provisions apply regarding site development plans:

- (a) the property must be developed generally in accordance with an approved site development plan;
- (b) if the Municipality considers it necessary, a transport or traffic impact statement or assessment may be required in conjunction with a site development plan, the extent of which must be determined by the Municipality, depending on the size of the development;
- (c) if the Municipality considers it necessary, a storm water impact assessment or storm water management plan or both may be required in conjunction with a site development plan, the extent of which must be determined by the Municipality, depending on the size of the development;
- (d) if the Municipality considers it necessary, a visual impact assessment, which may include a landscape character analysis, may be required in conjunction with a site development plan, the extent of which must be determined by the Municipality, depending on the size of the development; and
- (e) an approved site development plan must be considered as setting additional development parameters applicable to the base zone, and any application for amendment must comply with the Municipality's requirements for the amendments.

#### **Hazardous substances**

- 26.(1) Any use or ancillary activity that involves the storage or keeping of hazardous substances that may result in an installation being declared a major hazardous installation in terms of occupational health and safety law is not permitted, unless the owner has submitted a risk management and prevention plan and the Municipality has approved the plan.
- (2) The Municipality's approval in terms of subsection (1) above does not exempt the owner from applying for permission in terms of other applicable legislation.

#### **Screening**

27. The Municipality may require screening in accordance with the following provisions:
- (a) any part of a land unit that is used for the storage or loading of goods must be enclosed with a suitable wall or landscape screening or both; and
  - (b) any external utility service or equipment that is required for a building must be appropriately screened from view from a public street, and the screening must be integrated with the building in respect of materials, colour, shape and size.

#### **Earth banks and retaining structures**

28. Unless the prior approval of the Municipality has been obtained—
- (a) no earth bank, retaining structure, column, suspended floor, other device or series of such devices may be constructed that enables the ground floor of a building to be raised more than 0,5 metres above natural ground level, provided that where the raising takes place, the height must still be measured from natural ground level, excluding infill for a driveway; and
  - (b) earth banks and/or retaining structures will be dependent on complying with engineering specifications and building plan approval by the Municipality.

#### **Boundary walls**

29. In the absence of an approved site development plan, architectural guidelines or relevant policy, the following development parameters apply to boundary walls:

- (a) **Height**  
The maximum height in all cases is 2,1 metres.
- (b) **Permeability**
  - (i) 40% of a residential street boundary wall must be permeable; and
  - (ii) 60% of a street boundary wall in other areas must be permeable.

#### **Maintenance of property**

30. Property must be properly maintained by the owner or occupier and may not—
- (a) be left in a neglected or offensive state, as may be determined by the Municipality;
  - (b) contain an unsightly accumulation of papers, cartons, garden refuse, rubble or other waste material, as may be determined by the Municipality;
  - (c) contain an accumulation of motor wrecks or unroadworthy vehicles or used motor parts, unless these are permitted in terms of the primary or consent use applicable in terms of this zoning scheme; and
  - (d) contain outdoor storage of building material, appliances or similar items unless these—
    - (i) are permitted in terms of the primary or consent use in terms of this zoning scheme;
    - (ii) are temporarily being stored for the purpose of construction in accordance with a valid building plan approval; or
    - (iii) are being stored in conjunction with the holding of a yard or garage sale with a duration of not more than two consecutive days.

#### **Parking of vehicles in residential zones**

31. A motor vehicle of an occupant of a dwelling unit and used for commercial activities conducted away from the dwelling unit may be parked on the property where the occupant resides, provided that—
- (a) there is adequate space on the property concerned;
  - (b) no more than one commercial vehicle per dwelling unit may be parked on the property; and
  - (c) the gross weight of any such commercial vehicle may not exceed 3 500 kg.

#### **Mobile homes and caravans**

- 32.(1) A recreation vehicle, including a mobile home or caravan, may not be used for permanent habitation without the approval of the Municipality, unless the zoning lawfully allows such activity.
- (2) The following additional development parameters apply regarding mobile homes approved to be placed on a land unit zoned for residential purposes:
- (a) the mobile home or caravan must be sited on a foundation slab and properly anchored;
  - (b) solid perimeter skirting, of material and colour complementary to the mobile home or caravan, must be provided from the bottom of the mobile home to the ground surface; and
  - (c) any structural additions must be of materials which, in the opinion of the Municipality, are compatible with the mobile home or caravan.

#### **Rooftop base telecommunication stations and satellite dish antenna systems**

- 33.(1) A rooftop base telecommunication station may not extend more than 3 metres in height above the building that it is attached to without the prior approval of the Municipality.

- (2) No rooftop base telecommunication station or transmission tower granted as a consent use in terms of this By-law may be modified or have its radio-frequency emissions altered without prior written approval from the Municipality.
- (3) The following provisions apply regarding decommissioned antennae or rooftop base telecommunication stations:
  - (a) the owner or operator must remove all decommissioned infrastructure;
  - (b) if the site has been disturbed, the owner or operator must rehabilitate the site to its original state or to a state acceptable to the Municipality; and
  - (c) if the owner or operator fails to comply with paragraphs (a) or (b), the Municipality may remove that infrastructure, and rehabilitate the site at the expense of the owner or operator.
- (4) Any satellite dish antenna with a diameter in excess of 1,5 metres must be placed in a position that minimises the visual impact on the surrounding area, to the satisfaction of the Municipality.
- (5) Satellite dish antennas of 1,5 metres in diameter and smaller and used solely for the purposes of television reception or telecommunication, do not require the Municipality's approval and are excluded from height restrictions.

#### **Geysers and solar panels or similar infrastructure affixed to roofs of buildings**

34. Any external geysers and associated equipment or solar panels or similar infrastructure affixed to the roof of a building may not at any point be more than 2 metres above the roof surface, measured perpendicularly from that surface.

#### **Equipment on top of building**

35. No elevator motor rooms, satellite dishes, ventilation shafts, water tanks, air conditioning plants or other equipment on top of a flat roofed building may, subject to the definition of "height", exceed a height of 2 metres above the wall plate.

#### **Parapet walls**

36. Parapet walls are restricted to 500 millimetres in height above the finished roof level immediately contiguous to the parapet

#### **Chimneys**

37. Chimneys may not extend higher than 1 metre above the highest point of the roof of a dwelling house or dwelling unit.

#### **Linear infrastructure**

38. Any land unit, irrespective of its zoning, as a primary right, may allow telecommunication and electrical transmission lines and pipelines or canals for the transportation of liquids and gasses to traverse it, as may be reasonably required by the Municipality or an organ of state in accordance with and subject to expropriation laws, other applicable laws and the registration of the necessary servitudes.

### Utilisation of outbuildings

39. No outbuilding may be utilised for any purpose other than the purpose submitted in the building plans and approved by the Municipality, and an outbuilding may not be utilised until the main buildings are completed or occupied, unless approved by the Municipality.

### Determination of natural ground level

- 40.(1) The Municipality may request the submission of a registered land surveyor's certificate to determine the natural ground level before any construction activities may commence.
- (2) Where the level of the land has been altered with the approval of the municipality—
- (a) any grading for the purpose of development must connect evenly with the existing levels of abutting land units; and
  - (b) the municipality may approve the altered ground level to be the natural ground level.
- (3) Where it is not possible to determine the natural ground level due to irregularities or disturbances of the land, the Municipality may—
- (a) determine the natural ground level from measurements supplied on a building plan;
  - (b) deem a level to be the natural ground level based on measurements interpolated from a contour plan, local height benchmark or other information held by the Municipality; or
  - (c) require the owner or applicant to commission a registered surveyor at the cost of the owner or applicant to measure levels of the ground or interpolate levels, in order to provide the Municipality with sufficient information to determine the natural ground level for the purpose of administering this By-law.
- (4) Where a building site is elevated, filled or extended with excavated or any other material, the natural ground level is not altered unless approved by the Municipality in which case the Municipality must define a ground level for the purposes of administering the height restriction of the building.

### Animals kept for commercial purposes

- 41.(1) Animals may be kept for commercial purposes only on a land unit zoned Agricultural Zone I and Agricultural Zone II. The Municipality's consent shall be required if animals are kept for commercial purposes on a land unit within urban areas, not zoned Agricultural Zone I and Agricultural Zone II.

### Hobbies in single and general residential zones

42. When exercising a hobby in all single and general residential zones, the dominant use of the dwelling house or dwelling unit must be for the living accommodation of a single family, provided that—
- (a) no portion of the dwelling, may be used for the purposes of a noxious trade, risk activity or sale of alcoholic beverages;
  - (b) in addition to paragraph (a), the following uses are not classified as hobbies:
    - (i) activities conforming to the definition of a shop;
    - (ii) animal care centres;
    - (iii) butcheries;
    - (iv) coal and wood merchants;
    - (v) escort agencies or adult entertainment;
    - (vi) fishmongers;
    - (vii) hospitals or clinics;
    - (viii) house shops;

- (ix) taverns or house taverns;
  - (x) manufacturing of concrete products;
  - (xi) motor vehicle repairs;
  - (xii) panel beating or spray painting;
  - (xiii) parcel delivery services;
  - (xiv) places of entertainment;
  - (xv) places of instruction
  - (xvi) shooting ranges or shooting instructions;
  - (xvii) taxi businesses;
  - (xviii) tow-in services;
  - (xix) transport contractors;
  - (xx) undertakers;
  - (xxi) vehicle rental agencies; and
  - (xxii) any other activity that in the opinion of the Municipality does not fit in the particular environment or is of a nature that it must be located on a suitably zoned premises;
- (c) no goods may publicly be displayed, and no external evidence of the hobby may be visible from the street;
  - (d) no advertising may be displayed;
  - (e) any public exhibition of hobby items or activities on the residential property must:
    - (i) be preceded by a written consent from the Municipality; and
    - (ii) during the public exhibition, temporary parking must be provided on the land unit in accordance with the parking requirements of this By-law and appropriate traffic regulating measures must be put in place;
  - (f) an activity associated with a hobby may not occupy more than 25% of the total floor area of the dwelling on the property or 60 m<sup>2</sup>, whichever is more restrictive, including storage;
  - (g) the Municipality may restrict the operating hours relating to the hobby, if the activity proves to be a nuisance to residents in the area; and
  - (h) any new structure, or alteration to the existing dwelling or outbuilding, must conform to the residential character of the area concerned.

## CHAPTER 8 PARKING AND LOADING

### Off-street parking requirements

- 43.(1) If parking requirements are not stipulated for a particular use, or in terms of a specific condition imposed by the Municipality, parking must be provided at a minimum ratio in accordance with the table entitled “Minimum off-street parking requirements”.
- (2) The Municipality must determine off-street parking requirements for land uses not stipulated in the table “Minimum off-street parking requirements”.
- (3) The column in the table titled “Minimum off-street parking requirements” and with heading “Normal Areas” refers to standard requirements that apply to areas where public transport is not being specifically promoted.
- (4) The column with heading “PT Areas” refers to areas where the use of public transport is to be promoted and/or the Municipality considers the provision of public transport sufficient enough to justify the reduced parking requirements.

- (5) If an area has not been specifically identified by the Municipality as a PT area, then the parking requirements for Normal areas apply.
- (6) Off-street parking space must be provided—
- on the property for which parking is required;
  - subject to the Municipality's approval, in public parking facilities available in the vicinity; or
  - in accordance with the table below;
- (7) Areas designated as "PT" areas must be indicated on the zoning scheme map.

### Minimum off-street parking requirements

Land Use		Normal Areas	PT Areas

### Alternative parking supply

- 44.(1) As an alternative to compliance with the off-street parking requirements in terms of this zoning scheme, an owner may, with the approval of the Municipality—
- (a) acquire an area of land sufficient for the permanent parking requirements elsewhere, in a location approved by the Municipality; or
  - (b) acquire permanent rights to a parking facility or portion of a parking facility elsewhere, in a location approved by the Municipality, and must register a notarial tie or servitude against that land or parking facility to link the properties concerned for the purpose of parking, and the owner must cause the parking concerned to be constructed and maintained in accordance with the Municipality's requirements and approval.
- (2) The cost of registration of the notarial tie or servitude referred to in paragraph (1)(b) shall be borne by the owner.

### Combined parking requirements

45. If two or more uses combine to share a common parking area, the Municipality may approve parking requirements that provide less than the quantum of the parking required for individual uses provided that—

- (a) the Municipality is satisfied that the utilisation of the same parking area by the different use types or activities in the zones will not result in a concurrent use of the parking area; and
- (b) bays intended for combined uses may not subsequently be reallocated to other uses without the approval of the Municipality.

#### Site access and exits

- 46.(1) The Municipality may require compliance with standard municipal or provincial access spacing guidelines.
- (2) No access may be closer than 10 metres from an intersection as defined by the prolongation of street boundaries, except for industrial-zoned properties, where the distance must be 15 metres.
  - (3) The Municipality may restrict or prohibit access if a pedestrian or traffic hazard is created or is likely to be created.
  - (4) Vehicle entrances and exit ways to and from a property must conform to the following requirements:
    - (a) motor vehicle carriageway crossings must be limited to one per site per public street or road abutting the site;
    - (b) notwithstanding paragraph (a), where the total length of any street boundary of a site exceeds 30 metres in length, one additional carriageway crossing may be permitted, provided that no two carriageway crossings are closer than 12 metres to each other;
    - (c) the minimum and maximum widths of motor vehicle carriageway crossings must be in accordance with the table, titled "Width of motor vehicle carriageway crossings"; and
    - (d) the minimum width of a panhandle access may not be less than 4 metres wide.
  - (5) The Municipality may permit a deviation of the requirements in subsection (4) for Single Residential Zone I and Single Residential Zone II if the Municipality, from a pedestrian or traffic safety point of view, considers the exemption necessary and/or acceptable.

#### Width of motor vehicle carriageway crossings

Type of carriageway crossing	Minimum width	Maximum width
Single entrance or exit way	2,7 metres	6,0 metres
Combined entrance and exit way	5,0 metres	10,0 metres

#### Parking layout requirements

- 47.(1) The following parking layout requirements apply unless otherwise stated in this zoning scheme:
- (i) parking layout configurations, minimum dimensions and ramps to a parking area must be in accordance with this zoning scheme or an approved site development plan;
  - (ii) the layout of any parking area, except for parking in Single Residential Zone I, Single Residential Zone II and General Residential Zone I, must ensure that vehicles can readily leave the site without reversing across the sidewalk, unless otherwise approved by the Municipality;
  - (iii) a tandem bay accommodating two motor vehicles is regarded as one bay for the purposes of this zoning scheme, except for single residential zones, where a tandem bay is regarded as two bays;

- (iv) visitor parking bays must be clearly demarcated, readily visible and accessible to visitors, and preferably grouped together;
  - (v) parking areas must be used for the parking of vehicles which are lawfully allowed on them, and any activity which causes an obstruction for vehicular traffic or pedestrian use of the sidewalk is prohibited;
  - (vi) parking areas must be constructed and maintained in a state suitable for the parking and movement of vehicles;
  - (vii) control of access to and reservation of parking bays or areas is not permitted unless written approval has been obtained from the Municipality, either through an approved site development plan or other written approval; and
  - (viii) notwithstanding paragraphs (a) to (g), the Municipality may lay down more restrictive requirements related to parking, site access or motor vehicle carriageway crossing, if it considers this to be necessary from a pedestrian or traffic safety point of view.
- (2) The Municipality may require an applicant to submit a parking layout plan indicating—
- (a) the way in which it is proposed that motor vehicles park;
  - (b) the means of entrance and exit from parking areas;
  - (c) landscaping proposals;
  - (d) construction details; and
  - (e) any other information that the Municipality deems necessary relevant to the provision of parking.
- (3) The Municipality may approve or refuse the parking layout plan and impose conditions of approval.

**Parking for physically disabled**

- 48.(1) The Municipality may require parking suitable for use by persons with physical disabilities to be provided on any land unit in order to ensure easy and convenient access for such persons to services and facilities generally open to the public and to residential uses.
- (2) In any parking facility serving the public, parking for persons with physical disabilities must be provided in accordance with the table entitled “Physically disabled accessible parking”.

**Physically disabled accessible parking**

Total no of parking bays	Required number of bays accessible to the physically disabled
1–50	1
51–100	2
101–150	3
151–200	4
For every additional 100 bays	1 additional parking bay

- (3) Parking for the physically disabled must comply with the following requirements:
- (a) parking bays must be a minimum of 3,7 metres in width and 5 metres in length;
  - (b) parking and access aisles must be level;
  - (c) parking bays must be located as near as possible to accessible building or site entrances, and must be located to provide convenient access to kerb ramps;
  - (d) each parking bay reserved for physically disabled persons must be marked on the parking surface with the international symbol for disabled accessibility;
  - (e) additional signage indicating the parking bay as reserved for exclusive use by persons with physical disabilities may be required by the Municipality; and

- (f) if five or fewer parking bays are provided, at least one bay must be 4 metres wide and marked to provide a parking bay of 2,5 metres with an access aisle of 1,5 metres, but the bay need not be reserved exclusively for persons with physical disabilities.
- (4) Parking for persons with physical disabilities must count towards fulfilling off-street parking requirements.

#### **Motorcycle and bicycle parking spaces**

- 49.(1) The Municipality may require that parking be provided for motorcycles and bicycles.
- (2) For every 4 motorcycle and 6 bicycle parking spaces provided, a credit of 1 parking bay may be given towards applicable parking requirements, provided that—
  - (a) the total credit may not exceed 2,5% of the parking bays required;
  - (b) the minimum dimension for a motorcycle space is 2,2 metres in length and 1 metre in width; and
  - (c) the minimum dimension for a bicycle space is 2 metres in length and 0,6 metres in width.
- (3) Signage, bollards and racks or other devices for storing bicycles and enabling motorcyclists to make use of the motorcycle and bicycle parking spaces must be installed.

#### **Loading requirements**

- 50.(1) Unless the Municipality grants approval to waive this requirement, loading bays must be provided in accordance with the table entitled “Minimum off-street loading bay requirements”.
- (2) The Municipality may determine off-street loading requirements for uses not stipulated in the table entitled “Minimum off-street loading bay requirements”.
- (3) The following minimum requirements apply to loading bays:
  - (a) a loading bay must measure not less than 4,5 metres x 10 metres for perpendicular loading, and 2,5 metres x 12 metres for parallel loading;
  - (b) no carriageway crossing to be accessed by loading vehicles may be less than 3 metres in width, and no combined entrance and exit way may be less than 6 metres in width; and
  - (c) covered loading areas must have a minimum headroom of 3,7 metres.

### Minimum off-street loading bay requirements

Land use	Floor area (m <sup>2</sup> )	Number of loading bays
Offices	0–5 000	0
	5 001–15 000	1
	15 001–30 000	2

Supermarket	0–500	1
	501–1 000	2
	1 001 and greater	3 x requirements for business premises other than offices, supermarket, industry

## CHAPTER 9 REFUSE ROOMS AND SERVICE YARDS

### Refuse rooms

51. The Municipality may, for the purposes of collecting refuse, require the owner to install a refuse receptacle on a property which—
- is of sufficient size to accommodate the refuse generated from the property for one week;
  - is located adjacent to a public street, or in a position which will provide acceptable access to a refuse collection vehicle;
  - is designed in a manner that is architecturally compatible with the other structures on the property and will screen refuse bins from public view; and
  - complies with any other conditions or standard requirements that the Municipality may impose relating to access, health, pollution control, recycling, safety or aesthetics.

### Service yards

- 52.(1) The Municipality may require the owner to install a screened area providing utility services such as washing lines for residential developments, which -
- is designed in a manner that is architecturally compatible with the other structures on the property and in the case of refuse bins must be screened from public view; and
  - complies with any other conditions or standard requirements that the Municipality may impose relating to access, health, pollution control, safety or aesthetics.

<b>AGRICULTURAL ZONES</b>		
<b>Agricultural Zone I (AZI)</b>		
<p><i>The objective of this zone is to promote and protect agriculture on farms as an important economic, environmental and cultural resource. ### LAND USE DESCRIPTIONS AND DEVELOPMENT PARAMETERS

#### “abattoir”

**Land use description:** “*abattoir*” is a place where animals are slaughtered and prepared for distribution to butchery shops and food markets.

**Development parameters:**

The development parameters applicable to “industry” apply, as well as those applicable to “agricultural industry” when an abattoir is located on a farm.

#### “additional dwelling unit”

**Land use description:** “*additional dwelling unit*” is a dwelling unit that may be erected on an agricultural land unit with the consent of the Municipality, in addition to a primary dwelling house or agricultural worker accommodation for *bona fide* agricultural workers, or both, provided that—

- (a) additional dwelling units can be allowed at a ratio of one additional dwelling unit per 10 ha, calculated on the basis of all additional dwelling units on the agricultural land unit, up to a maximum of five (5) additional dwelling units per agricultural land unit; with the exception of one additional unit that can be allowed in all cases as a consent use, irrespective of the size of the agricultural land unit;
- (b) an additional unit may not be erected within 1 km of the high-water mark of the sea or a tidal river except where a proclaimed township is situated between the additional dwelling unit and the sea or tidal river;
- (c) one additional dwelling unit may be erected within the 1km high water mark of the sea or a tidal river, provided that the additional dwelling unit is attached to the main house and does not exceed a floor area of 80m<sup>2</sup>; and
- (d) no alienation of additional dwelling units will be permitted whether by cadastral subdivision or sectional title.

**Development parameters:**

The development parameters applicable to “agriculture” apply, together with the following additional development parameters for “additional dwelling units”. Additional dwelling units may be erected with the consent of Municipality provided that—

- (a) a dwelling for a person engaged in *bona fide* agricultural activities on the land unit is not regarded as an additional dwelling unit;
- (b) the total floor space of an additional dwelling unit may not exceed 175 m<sup>2</sup>, which includes the floor space in all ancillary buildings to the additional dwelling unit;
- (c) an additional dwelling unit must be constructed in a style that is similar to the architecture of the main dwelling house, unless otherwise permitted by the Municipality;
- (d) the height of an additional dwelling unit may not exceed 8 metres from the base to the wall plate in all cases and 10 metres to the top of the ridge of the roof in the case of a pitched roof;
- (e) an additional dwelling unit that is contained within the same building as a dwelling house must be designed so that the building appears to be a single dwelling house; provided that both units may have a ground floor, or one unit may be on the ground floor and the other unit above;
- (f) the existence of an additional dwelling unit may not in itself be sufficient reason for the Municipality to grant an application in terms of the Planning By-law to subdivide the land unit containing the dwelling units.

**“adult entertainment”**

**Land use description:** “*adult entertainment*”—

- (a) means the use of property for adult film theatres or strip clubs where sexually explicit, live or recorded shows are displayed; and
- (b) does not include adult services or an adult shop.

**Development parameters:**

The development parameters applicable to “business premises” apply.

**“adult services”**

**Land use description:** “*adult services*”—

- (a) means the use of property for massage parlours or escort agencies where sexually orientated personal services are provided, unless the services form part of a medical or therapeutic service provided by a registered medical practitioner or similar registered professional person; and
- (b) does not include adult entertainment or an adult shop.

**Development parameters:**

The development parameters applicable to “business premises” apply.

**“adult shop”**

**Land use description:** “*adult shop*”—

- (a) means the use of property for the retail sale of pornographic, sexually explicit or erotic material, whether or not the material is displayed for sale, unless the material forms part of a medical or therapeutic service provided by a registered medical practitioner or similar registered professional person; and
- (b) does not include adult entertainment or adult services.

**Development parameters:**

The development parameters applicable to “business premises” apply.

**“agricultural industry”**

**Land use description:** “*agricultural industry*”—

- (a) means an enterprise for the processing of agricultural products of which the majority of the products is sourced from that land unit and if not produced on that land unit, then from the land units farmed by the owners of the enterprise with a minority of the products sourced from the surrounding or nearby farms;
- (b) includes a winery, brewery, dairy, distillery, the bottling of water, a sawmill; and
- (c) does not include an abattoir.

**Development parameters:**

In addition to the development parameters applicable to “agriculture” apply, the Municipality may approve an agricultural industry in an applicable zone provided that:

- (a) it is desirable on land unit in question;
- (b) it is subservient and related to the dominant agricultural use of the property;
- (c) it does not adversely affect the agricultural potential of the property; and
- (d) the area allocated for its purposes shall be clearly identified on a survey diagram, site development plan or other plan.

In addition to the above development parameters, the parking requirements for “industry” apply.

**“agricultural worker accommodation”**

**Land use description:** “*agricultural worker accommodation*” means accommodation provided for *bona fide* agricultural workers, including accommodation for labourers and farm

managers, as determined by the Municipality based on the extent of the *bona fide* agricultural activities on the land unit.

**Development parameters:**

The development parameters applicable to “agriculture” apply with the following additional development parameters:

- (a) the number of units must be reasonably connected to the *bona fide* agricultural activities on the land unit and may be determined in consultation with the department that is responsible for agriculture; and
- (b) no agricultural worker accommodation may be erected within 1 km of the high-water mark of the sea or a tidal river.

**“agriculture”**

**Land use description:** “*agriculture*” means the cultivation of land for raising crops and other plants, including plantations, the keeping and breeding of animals, birds or bees, stud farming, game farming, intensive horticulture, winery, intensive animal farming, a riding school or natural veld, and—

- (a) includes—
  - (i) the harvesting, cooling, storing, sorting, packing and packaging of agricultural produce grown on that land unit and surrounding or nearby farms;
  - (ii) harvesting of natural resources limited to living organisms for delivery to the market;
  - (iii) agricultural buildings or infrastructure that are reasonably connected with the main farming activities, including a dwelling house, agricultural worker accommodation, a crèche, and rooftop base telecommunication stations;
  - (iv) a camping site limited to a maximum of 10 tent or caravan stands catering for not more than 40 people subject to the development parameters applicable to “tourist accommodation” and an approval of a site development plan, provided that a consent use must be applied for in the following cases:
    - (a)(a) the property is situated within 1km of the high-water mark of the sea;
    - (b)(b) more than 10 tent or caravan stands are applied for;
  - (v) linear infrastructure;
  - (vi) agricultural industry;
  - (vii) a farm shop;
  - (viii) Farm graveyard; and
- (b) does not include aquaculture; an abattoir, an animal care centre, any mining activity, utility services and renewable energy structures for commercial purposes.

**Development parameters:**

The following development parameters apply:

(a) **Building lines**

The road or street and common boundary building lines are determined in accordance with the area of the land unit, as shown in the following table entitled “Building lines for agricultural use”:

**Building lines for agriculture use**

Land unit area	Road or street and common boundary building line
≤20 ha	15 metres
>20 ha	30 metres

**(b) Height**

- (i) The height of a dwelling house may not exceed 8 metres to the wall plate in all cases and 10 metres to the ridge of the roof in the case of a pitched roof.
- (ii) Agricultural buildings other than dwelling houses may not exceed a height of 15 metres to the top of the roof.
- (iii) Earth banks and retaining structures that are in the opinion of Municipality associated with *bona fide* agricultural activities are exempt from the general provisions in this regard in this By-law.

**(c) Site development plan**

For any development in this zone, including any part of the land not zoned Agriculture, a site development plan must be submitted to the Municipality for its approval taking specific cognisance of visual impact given the size and scale of the agricultural buildings and facilities and their location in a rural landscape, and their proximity to tourist routes.

**“agri-village”**

**Land use description:** “agri-village” means a private settlement of restricted size, established and managed by a legal institution that is situated within an agricultural area and where residence is restricted to bona fide agricultural workers and their dependents of the farms involved in the development. Security of tenure does not include right of ownership but can include a Trust, Communal Property Association or Sectional Title. The development of agri-villages represents a partnership between farmer, agricultural worker and state.

**Development parameters:**

- (a) The Municipality must require a site development plan for an agri-village.
- (b) The site development plan as approved by the Municipality constitutes the development parameters.
- (c) The provisions for a site development plan in this By-law apply.

**“air and underground rights”**

**Land use description:** “air and underground rights” means any use right that may be approved by the Municipality for the development of a defined space above or below a public street, open space, railway line, a public street or any other land utilised for transport purposes.

**Development parameters:**

- (a) The Municipality must require a site development plan for air and underground rights.
- (b) The site development plan as approved by the Municipality constitutes the development parameters.
- (c) The provisions for a site development plan in this By-law apply.
- (d) The Municipality may approve a consent use for air or underground rights if—
  - (i) the consent use does not compromise the intended primary use of the land;
  - (ii) an agreement defining the extent of rights, time period, compensation, ownership and maintenance obligations relating to the property is concluded between the parties concerned and is approved by the Municipality;
  - (iii) a servitude in respect of the air or underground rights is registered over the land concerned; and
  - (iv) the Municipality is satisfied that structural components, clearance and operational characteristics are sufficient to ensure safe and efficient operation of the street, road or parking.

**“airfield”**

**Land use description:** “airfield” means runways and associated buildings for the take-off and landing of light aircraft, and may include a helicopter landing pad.

**Development parameters:**

- (a) The Municipality must require a site development plan for an airfield.
- (b) The site development plan as approved by the Municipality constitutes the development parameters.
- (c) The provisions for a site development plan in this By-law apply.

**“airport”**

**Land use description:** “*airport*” means a complex comprising aircraft runways and associated buildings for the take-off and landing of civilian aircraft and facilities for the handling and storage of air freight and includes land uses ancillary to airports, and includes—

- (a) a restaurant;
- (b) car rental facility;
- (c) shop; and
- (d) hotel; and
- (e) helicopter landing pad

**Development parameters:**

The development parameters applicable to “transport use” and “business premises” apply, provided that a site development plan must be submitted to the Municipality for its approval.

**“animal care centre”**

**Land use description:** “*animal care centre*” means a place for the care of pets and animals, operated on either a commercial or a welfare basis, and includes—

- (a) boarding kennels; and
- (b) pet training centres.

**Development parameters:**

The development parameters applicable to “agriculture” apply, however the Municipality will determine the applicable development parameters in other land uses.

**“aqua-culture”**

**Land use description:** “*aqua-culture*” means the breeding, for commercial purposes, of water flora or fauna in artificially constructed dams, holding tanks, or suspended from floating supports in natural water bodies.

**Development parameters:**

The development parameters applicable to “agriculture” apply.

**“authority use”**

**Land use description:** “*authority use*” means a use which is practised by or on behalf of an organ of state and that cannot be classified or defined under other uses in this zoning scheme, and includes a use practised by—

- (a) the national government, including a military centre or installation, police station or correctional facility;
- (b) the provincial government, including a road station or road camp;
- (c) the Municipality, including a fire service or a municipal depot with related uses, including limited accommodation for staff who are required to be on standby for emergencies; and
- (d) a foreign government including an embassy or consulate, but does not include a dwelling house when the dominant use is for living accommodation of foreign diplomatic personnel.

**Development parameters:**

The development parameters and additional provisions as approved by the Municipality according to the site development plan or building plan apply to every site, use and type of building.

**“backpackers’ lodge”**

**Land use description:** “*backpackers’ lodge*” means a building where lodging for backpackers is provided per bed and not per bedroom, and includes a youth hostel.

**Development parameters:**

The development parameters applicable to “guest lodge” apply.

**“bed and breakfast establishment”**

**Land use description:** “*bed and breakfast establishment*” means a dwelling house, second dwelling, or additional dwelling unit—

- (a) in which the owner of the dwelling supplies lodging and meals for compensation to transient guests who have permanent residence elsewhere; and
- (b) provided that the dominant use, structure and design of the dwelling house concerned remains for the living accommodation of a single family.

**Development parameters:**

The development parameters applicable to “dwelling house”, “second dwelling” and “additional dwelling unit” apply.

The following further parameters apply:

- (a) no more than 4 rooms per land unit may be used for bedroom accommodation for paying guest, and no more than 6 paying guest per land unit may be supplied with lodging or meals at any time;
- (b) the requirement in paragraph (a) is also applicable where a land unit contains both a bed and breakfast establishment and rooms that are available for letting to lodgers;
- (c) the owner of a bed and breakfast establishment must live on the property and inform the Municipality in writing before the establishment opens for business;
- (d) a register of guests must be kept, and completed when rooms are let;
- (e) any new structure or alteration to the property related to its use as a “bed and breakfast establishment” must be compatible with the residential character of the area, particularly with regard to the streetscape or rural character on a farm, and must be capable of reverting to use as part of the dwelling house, second dwelling, additional dwelling unit or outbuilding concerned;
- (f) no more than three employees may be employed in activities related to the bed and breakfast establishment;
- (g) no alcoholic beverages may be served except to resident guests for consumption on the premises;
- (h) guest rooms may not be converted to, or used as, separate self-catering dwelling units;
- (i) meals may only be supplied to guests who have lodging on the property, employees, and the family residing in the dwelling;
- (j) in the absence of a Municipal policy or by-law on outdoor advertising and signage, no advertising sign may be displayed other than a single un-illuminated sign or notice not projecting over a public street and not exceeding 1 m<sup>2</sup> in area;
- (k) no weddings, receptions, conferences, training or similar activities are permitted in a bed and breakfast establishment;
- (l) no activities may be carried out which constitute, or are likely to constitute, a source of public nuisance; and
- (m) on-site parking must be provided in accordance with the provisions of this By-law; provided that the Municipality may at any stage require additional on-site parking if, in the opinion of the Municipality, the bed and breakfast establishment does not have enough parking.

**“big box retail”**

### Development parameters

The development parameters applicable to “shop” apply.

Notwithstanding the zero common building lines, a 3 metre common building line applies where a land unit zoned Local Business Zone II abuts on a residential zone.

### “noxious trade”

**Land use description:** “*noxious trade*” means an industry that is offensive, poisonous or a potentially harmful use or activity that, because of the fumes, emissions, smell, vibration, noise, waste products, nature of material used, processes employed, or other cause, is considered by the Municipality to be a potential source of danger, nuisance or offence to the general public or persons in the surrounding area and includes—

- (a) an abattoir;
- (b) a crematorium;
- (c) rooftop base telecommunication station; and
- (d) freestanding base telecommunication station.

### Development parameters

The following development parameters apply:

- (a) **Floor factor**  
The maximum floor factor on the land unit is 2.
- (b) **Coverage**  
The maximum coverage for all buildings on the land unit is 75%.
- (c) **Height**
  - (i) No height restriction applies to buildings used for a noxious trade, risk activity or manufacturing in this zone.
  - (ii) Buildings not used for noxious trade, risk activity or manufacturing purposes may not exceed a height of 15 metres to the top of the roof.
  - (iii) The general provisions regarding earth banks and retaining structures in this By-law apply.
  - (iv) The highest point of shipping or transport containers, when stored or stacked outside a building connected with a noxious trade, may not exceed 15 metres above average ground level.
- (d) **Building lines**
  - (i) The street boundary building line is at least 5 metres.
  - (ii) The common boundary building lines are at least 5 metres.
- (e) **Parking and access**  
Parking and access must be provided on the land unit in accordance with this By-law.
- (f) **Loading**  
Loading bays must be provided on the land unit in accordance with this By-law.
- (g) **Screening**  
The Municipality may require screening on the land unit in accordance with this By-law.
- (h) **Boundary walls**  
Where a land unit has a common boundary with another land unit that is not zoned Industrial Zone II or Industrial Zone III, the Municipality may require a 1,8 metre-high wall, of the quality and with finishing’s to the satisfaction of the Municipality, to be erected along the common boundary.
- (i) **Hazardous substances**  
Notwithstanding the fact that an activity constitutes a primary use right in terms of this zone, no activity or use that includes the on-site storage of hazardous substances is permitted unless a risk management and prevention plan has been submitted to the Municipality for its approval. The risk management and prevention plan must include guidelines approved by the Municipality to prevent or minimise danger to the environment or humans from a particular activity or series of activities, and to deal with the consequences of any dangerous event involving the hazardous substances.

- (j) **Refuse room**  
A refuse room must be provided on the land unit in accordance with this By-law.
- (k) **Site development plan**  
The Municipality may require a site development plan to be submitted for its approval.

**“occasional use”**

**Land use description:** “*occasional use*” means a temporary departure granted by the Municipality for a specific occasion or event including—

- (a) craft markets;
- (b) circuses;
- (c) religious gatherings;
- (d) film shoots;
- (e) builder’s yards;
- (f) seasonal camping sites; and
- (g) other outdoor events.

**Development parameters:**

The following development parameters apply:

- (a) the applicant must provide parking and toilet facilities to the satisfaction of the Municipality.
- (b) the temporary activities may not extend for a continuous period of more than 30 days;
- (c) notwithstanding paragraph (b), the Municipality may determine a longer period for a builder’s yard; and
- (d) the Municipality may withdraw the approval by written notice to the applicant if any condition of approval is not complied with or if, in the opinion of the Municipality, the occasional use concerned creates a public nuisance.

**“office”**

**Land use description:** “*office*” means property used for the conducting of an enterprise primarily concerned with administrative, clerical, financial or professional duties, and includes—

- (a) medical consulting rooms;
- (b) a clinic;
- (c) tuck shop; and
- (d) funeral parlour.

**Development parameters**

The following development parameters apply:

- (a) **Floor factor**  
The floor factor may not exceed 1.
- (b) **Coverage**  
Coverage may not exceed 70%
- (c) **Street centre line setback**  
The municipality may require that all buildings or structures on the land unit are set back at least 6,5 metres from the centre line of the abutting street or streets.
- (d) **Height**
  - (i) The highest point of a building may not exceed 10 metres from average ground level to the top of the roof.
  - (ii) The general provisions regarding earth banks and retaining structures in this By-law apply.
- (e) **Building lines**
  - (i) The street building line is at least 0 metres.
  - (ii) The common building lines are at least 0 metres.

- (iii) Notwithstanding the zero common building lines, a 2 metre common building line applies where a land unit zoned Local Business Zone I abuts on a residential zone.
- (iv) The general building line encroachments in this By-law apply.
- (f) **Garages and carports**
  - (i) A garage or carport is permitted within the common boundary building line provided the garage or carport—
    - (aa) does not exceed 3.5 metres to the wall plate in all cases, and 4 metres to the ridge of the roof in the case of a pitched roof; and
    - (bb) does not contain more than a double garage façade with a maximum width of 7 metres.
- (g) **Parking and access**  
Parking and access must be provided on the land unit in accordance with this By-law, except in a case where the Municipality has approved alternative parking supply under section 44.(1).
- (h) **Loading**  
Loading bays must be provided on the land unit in accordance with this By-law.
- (i) **Screening**  
The Municipality may require screening in accordance with this By-law.
- (j) **Canopy or balcony projection**  
Canopy and balcony projections for “business premises” apply.
- (k) **Refuse room**  
The Municipality may require a refuse room to be provided on the land unit in accordance with this By-law.

**“off-road trail”**

**Land use description:** “*off-road trail*” means a series of roads, tracks and routes designed for recreational use and includes—

- (a) buildings and facilities normally required for the administration and maintenance of the trail; and
- (b) does not include tourist accommodation or tourist facilities.

**Development parameters:**

The development parameters applicable to “agriculture” apply.

**“open air motor vehicle display”**

**Land use description:** “*open air motor vehicle display*” means the display of motor vehicles for the purpose of trading under open air where the open-air area does not form part of a covered showroom and where shade cloth may not be construed as a permanent method of covering.

**Development parameters:**

The development parameters of “shop”, apply.

**“outdoor trading and dining”**

**Land use description:** “*outdoor trading and dining*” means the regular and daily use of land in an outdoor setting for the selling of goods and food, and includes outdoor dining and seating, and where such activities typically takes place in the open air, and/or from temporary structures such as stalls, tents or caravans, and may also take place in permanent open structures which provide protection from the elements whilst in an open-air setting.

**Development parameters:**

- (a) The Municipality must require a site development plan for outdoor trading and dining.
- (b) The site development plan as approved by the Municipality constitutes the development parameters.
- (c) The provisions for a site development plan in this By-law apply.

**“place of assembly”****Land use description:** *“place of assembly”*—

means a place that has a civic function to serve the social and community needs of an area, may attract people in relatively large numbers and is not used predominantly for a commercial enterprise and—

- (a) includes a civic hall, concert hall, indoor sports centre, gymnasium, sport stadium, conference facility, and club house; and
- (b) does not include a place of entertainment.

**Development parameters:**

Development parameters applicable to “place of instruction” apply.

**“place of entertainment”**

**Land use description:** *“place of entertainment”* means a place used predominantly for commercial entertainment and may include a bar, stage for live music, one or more dance floor areas, a DJ booth, and which may attract relatively large numbers of people, operate outside normal business hours or generate noise from music or revelry on a regular basis, including—

- (a) a nightclub;
- (b) disco;
- (c) dance club;
- (d) club; and
- (e) a place of leisure

**Development parameters:**

The following development parameters apply:

- (a) As determined by the Municipality.
- (b) The Municipality may require a site development plan to be submitted for its approval in accordance with this By-law.

**“place of instruction”****Land use description:** *“place of instruction”*—

means a place for education or training at pre-school, school or post-school levels, and includes—

- (a) a crèche, nursery school, primary school, secondary school, college, university or research institute;
- (b) includes ancillary uses including—
  - (i) a boarding hostel;
  - (ii) sports and recreation centre;
  - (iii) a civic facility for the promotion of knowledge to the community including—
    - (aa) a public library;
    - (bb) place of worship;
    - (cc) public art gallery;
    - (dd) museum;
    - (ee) place of instruction in sport where the main objective is instruction rather than participation of the public as competitors or spectators;
    - (ff) conference facility; and
- (c) does not include a reformatory.

**Development parameters:**

- (a) **Floor factor**  
The maximum floor factor is 1,2.
- (b) **Coverage**  
The maximum coverage is 60%.
- (c) **Height**
  - (i) The highest point of a building to the top of the roof may not exceed 12 metres, provided that there is no height limit for a bell tower, steeple, minaret or similar architectural feature designed to accentuate the significance of a building.
  - (ii) The general provisions regarding earth banks and retaining structures in this By-law apply.
- (d) **Building lines**
  - (i) The street building line is at least 5 metres.
  - (ii) Common building lines are at least 5 metres.
  - (iii) The general building line encroachments in this By-law apply.
- (e) **Parking and access**  
Parking and access must be provided on the land unit in accordance with this By-law.
- (f) **Loading bays**  
Loading bays must be provided on the land unit in accordance with this By-law.
- (g) **Screening**  
The Municipality may require screening in accordance with this By-law.
- (h) **Noise mitigation**  
The Municipality may require the owner to install noise mitigation measures if excessive noise is created or likely to be created.
- (i) **Refuse room**  
A refuse room must be provided on the land unit in accordance with this By-law.

**“place of leisure”**

**Land use description:** “*place of leisure*” means a place used predominantly for commercial leisure activities that may attract relatively large numbers of people, operate outside normal business hours or generate noise from such activities on a regular basis, including—

- (a) a cinema;
- (b) theatre;
- (c) amusement park/ centre;
- (d) dance hall;
- (e) ball room hall;
- (f) gymnasium;
- (g) sport centre;
- (h) skating rink;
- (i) pool room;
- (j) pub; and
- (k) a sports and recreation centre.

**Development parameters:**

The following development parameters apply:

- (a) As determined by the Municipality.
- (b) The Municipality may require a site development plan to be submitted for its approval in accordance with this By-law.

**“place of worship”**

**Land use description:** “*place of worship*”—

means a church, synagogue, mosque, temple, chapel or other place for practising a faith or religion, provided that a dwelling where the occupants engage in worship does not constitute a place of worship and includes—

- (a) ancillary uses such as a religious leader’s dwelling, office, crèche, function hall, or place for religious instruction; and
- (b) does not include a funeral parlour, cemetery or crematorium, and a dwelling where the occupants engage in worship.

**Development parameters:**

Development parameters applicable to “place of instruction” apply.

**“plant nursery”**

**Land use description:** “*plant nursery*” means a property used for one or more of the following uses as a commercial enterprise:

- (a) cultivation of plants;
- (b) sale of plants; and
- (c) sale of gardening products and gardening equipment.

**Development parameters:**

As determined by the Municipality.

**“private open space”**

**Land use description:** “*private open space*”—

means land not designated as public open space and that is used primarily as a private site for sport, play, rest or recreation, or as a park, botanical garden, nature conservation area and includes—

- (a) ancillary buildings, infrastructure, and public land that is or will be leased on a long-term basis; and
- (b) does not include shops and restaurants.

**Development parameters:**

The following development parameters apply:

- (a) the Municipality must require a site development plan to be submitted for its approval; and
- (b) the site development plan as approved by the Municipality constitutes the development parameters for a primary use and, if applicable, a consent use.

**“private parking”**

**Land use description:** “*private parking*” means property reserved exclusively for parking purposes and that is not normally accessible to the general public.

**Development parameters:**

A site development plan must be submitted to the Municipality for its approval. The site development plan as approved constitutes the development parameters for such private parking.

**“private road”**

**Land use description:** “*private road*”—

means privately owned land designated as a private road that provides vehicle access to a separate cadastral property or properties and includes—

- (a) utility services and ancillary access control infrastructure, including a gatehouse, guardhouse, refuse room and utility room; and

- (b) does not include a driveway on a property, or a servitude right of way over a property as these do not constitute private roads for the purpose of this zoning scheme.

**Development parameters:**

As determined by the Municipality.

**“prospecting”**

**Land use description:** “*prospecting*” means the first stage of physical search for minerals, fossils, precious metals or mineral specimens and may be granted as a temporary departure from this By-law by the Municipality since it does not constitute a primary, consent or occasional use right in terms of this By-law.

**Development parameters:**

As determined by the Municipality.

**“public open space”**

**Land use description:** “*public open space*” means land, with or without access control—

- (a) owned by the Municipality or other organ of state;
- (b) not leased out by the Municipality or that other authority on a long-term basis;
- (c) set aside for the public as an open space for recreation or outdoor sport and designated as public open space; and
- (d) includes a park, playground, public or urban square, picnic area, camping site, public garden, nature area and ancillary buildings and infrastructure.

**Development parameters:**

The following development parameters apply:

- (a) the Municipality may require a site development plan to be submitted for its approval; and
- (b) the site development plan as approved by the Municipality constitutes the development parameters for a primary use, if applicable, and a consent use.

**“public parking”**

**Land use description:** “*public parking*” means property that is accessible to the general public for parking purposes with or without a fee and/or access control.

**Development parameters:**

A site development plan must be submitted to the Municipality for its approval. The site development plan as approved constitutes the development parameters for the public parking.

**“public street”**

**Land use description:** “*public street*” means any land, owned by or vesting in the Municipality, indicated on an approved plan, diagram or map as having been set aside as a public thorough way for vehicles and pedestrians and includes—

- (a) open public parking areas;
- (b) sidewalks;
- (c) those parts of a public place that are travelled parts;
- (d) informal trading; and
- (e) appropriate and necessary street furniture and infrastructure, including reticulation networks that does not present any threat to the safety or obstruct or inhibit free movement of pedestrians.

**Development parameters:**

A site development plan may be submitted to the Municipality for its approval. The site development plan as approved constitutes the development parameters for the public street.

**“quarry”**

**Land use description:** “*quarry*” means a place from which dimension stone, rock, construction aggregate, riprap, sand, gravel or slate is excavated from the ground. A quarry is a type of open pit mine that produces building materials and dimension stone.

**Development parameters:**

- (a) Development parameters applicable to “agriculture” together with additional parameters determined by the Municipality apply.
- (b) If a quarry is approved as a consent use in Agricultural Zone I, the consent may only be granted for the number of years equal to the expected lifetime of the quarry concerned.
- (c) The owner must comply with national and provincial statutory requirements applicable to mining.
- (d) Any application to rezone land to Industrial Zone IV must contain an explanation of the measures that will be implemented to address safety and environmental concerns which may be imposed as conditions of approval by the Municipality, including but not limited to—
  - (i) control of drainage, sedimentation and erosion;
  - (ii) preservation of surface and substance water;
  - (iii) preservation of topsoil;
  - (iv) provision for restoration and the re-use of the site;
  - (v) provision for noise and visual buffering;
  - (vi) accommodation of heavy traffic and vehicles on roadways; and
  - (vii) a phased programme for rehabilitation.
- (e) A site development plan must be submitted to the Municipality for its approval.

**“rehabilitation centre”**

**Land use description:** “*rehabilitation centre*” means a facility providing treatment for substance abuse and/or a premises or part thereof used or intended to be used to rehabilitate people and/or animals through physical or mental stimulation.

**Development parameters:**

Development parameters applicable to “place of instruction” apply.

**“renewable energy structure”**

**Land use description:** “*renewable energy structure*”—

means any wind turbine, solar energy generating apparatus (including solar photo-voltaic and concentrated solar thermal), hydro turbines or biomass facility or any grouping thereof, that captures and converts wind, water, solar radiation or biomass into energy for commercial gain and includes—

- (a) any appurtenant structure necessary for, or directly associated with, generation of renewable energy, or any test facility or structure that may lead to the generation of energy on a commercial basis, excluding electrical grid connections.

**Development parameters:**

- (a) **Height**
  - (i) The maximum height of a renewable energy structure is technology dependent.
  - (ii) The height of buildings may not exceed 10 metres from natural ground level to the top of the roof.
- (b) **Setback**

In the case of a wind turbine the setback is—

  - (i) a distance equal to 1,5 times the overall blade tip height of the turbine, measured from the nearest residential, commercial or critical agricultural

- structures including animal housing, outbuildings, store rooms, excluding structures such as water troughs, feed dispensers, and windmills;
- (ii) a distance of 100 metres from the cadastral boundary of the land unit, unless the renewable energy structure straddles two or more cadastral boundaries, in which case no setback applies;
  - (iii) a distance of 100 metres from any public road or private or public right of way, unless it provides access to the turbine;
  - (iv) a distance of 100 metres from any electrical infrastructure; and
  - (v) a distance of 1000 metres from towns, settlements or urban areas.
- (c) **Site development plan**
- (i) A site development plan must be submitted to the Municipality for its approval.
  - (ii) The site must be surveyed, and the exact delineation of the construction footprint must be shown in the site development plan.
  - (iii) To the extent necessary, any relevant measures contained in these regulations must be incorporated into the site development plan submitted to the Municipality for approval.
- (d) **Land clearing, soil erosion and habitat impact**
- (i) The clearing of natural vegetation is limited to that which is necessary for the construction, operation and maintenance of the renewable energy structure as regulated by applicable environmental legislation.
  - (ii) Wind turbines, solar structures, access roads and other infrastructure must be located to minimise damage to natural vegetation, water courses and wetlands.
  - (iii) All land cleared that does not form part of the footprint of a renewable energy structure must be rehabilitated according to a rehabilitation plan for the land concerned, approved by the Municipality.
  - (iv) Constructing or operating the renewable energy structure may not cause soil erosion, and any high-risk erosion areas must be rehabilitated by the operator, to the satisfaction of the Municipality.
  - (v) The applicant must prove, to the satisfaction of the Municipality, that planning for the renewable energy structure concerned has taken into account and mitigated the risk of all impacts on, and necessary distances that should be maintained from, wetlands, water bodies, threatened ecosystems, mountains, ridges, hills, coastal buffers, settlements, telecommunication towers, transmission towers and power lines.
  - (vi) The applicant must provide exact coordinates relevant to land clearing, soil erosion and habitat impact to assist the Municipality to evaluate the risk of possible negative environmental impacts of the renewable energy structure concerned.
- (e) **Noise, air quality and nuisance**
- The development must be compliant with regulations controlling pollution, including—
- (i) the National Environmental Management Act, 1998 (Act 107 of 1998);
  - (ii) provincial regulations in force; and
  - (iii) Municipal By-laws.
- (f) **Finishing, colour and design**
- (i) A wind turbine structure must be treated with a neutral, non-reflective exterior colour and designed to blend in with the surrounding natural environment, to the satisfaction of the Municipality.
  - (ii) A solar structure must minimise any adverse effects related to its reflective surfaces and must be designed and built in a way that mitigates this impact, as required by the Municipality.

- (g) **Appurtenant structures**
- (i) All appurtenant structures to a renewable energy structure prescribed by the Municipality concerning bulk, height, yard sizes, building lines, open space, parking and building coverage requirements are subject to applicable By-laws.
  - (ii) Appurtenant structures, including equipment shelters, storage facilities, transformers and sub-stations must be architecturally compatible with the receiving environment as required by the Municipality, and contained within a renewable energy structure site development plan submitted for approval by the Municipality.
  - (iii) Appurtenant structures may only be used for the storage of equipment or other uses directly related to the operation of the particular facility that they are associated with.
  - (iv) Appurtenant structures must be screened from view by indigenous vegetation or be joined and clustered to minimise adverse visual impacts.
- (h) **Lighting**
- (i) A renewable energy structure or any part of such a structure may only be lit for safety and operational purposes and the lighting must be appropriately screened from abutting land units.
  - (ii) A renewable energy structure must comply with the lighting air safety requirements of the South African Civil Aviation Authority in terms of the Civil Aviation Act, 2009 (Act 13 of 2009).
- (i) **Signage and advertising**
- Signs on renewable energy structures must comply with the laws regulating signage and be limited to signage necessary to—
- (i) identify the operator;
  - (ii) provide 24-hour emergency contact numbers; and
  - (iii) provide warning of any dangers associated with the structure.
- No commercial advertising, including advertising for the provider or operator, may be displayed on any renewable energy structure.
- (j) **Maintenance**
- The owner is responsible for maintaining a renewable energy structure in good condition, including any access road, unless deemed a public way, and for paying the cost of repairing any damage resulting from construction or operation. Maintenance must include, but not limited to—
- (i) painting;
  - (ii) structural repairs;
  - (iii) rehabilitation measures; and
  - (iv) the upkeep of security and safety measures.
- (k) **Modification**
- Any modification to a renewable energy structure, excluding inconsequential *in situ* technical improvements, made after approval and that is not in accordance with the approval and conditions of approval, requires authorisation from the Municipality within the parameters of these regulations by means of—
- (i) the amendment of approved conditions;
  - (ii) a new consent use approval;
  - (iii) amendment of the approved site development plan; or
  - (iv) amendment of the approved building plan.
- (l) **Decommissioning**
- (i) Any renewable energy structure and associated infrastructure that has reached the end of its productive life or has been abandoned, including buildings, cables and roads, must be removed by the owner.
  - (ii) A renewable energy structure is considered abandoned when the structure fails to continuously operate for more than two years.

- (iii) When a renewable energy structure is scheduled to be decommissioned or operations have been discontinued or it has been abandoned, the owner must, by registered mail, notify the Municipality within 30 days after the operation ceased, and of plans for removal of the structure and infrastructure referred to in subparagraph (i).
- (iv) The owner is responsible for the removal of the structure in all its parts, within 150 days after the date of discontinued operation, or as agreed upon by the Municipality after submission of a plan for decommissioning. The Municipality may grant an extension of the deadline for removing the structure and its parts. The land must then be rehabilitated by the owner, to the satisfaction of the Municipality, to the condition prescribed in the approved environmental management plan and the approved decommissioning plan.
- (v) Decommissioning must include, inter alia—
  - (aa) the removal of all renewable energy structures and appurtenant structures, including equipment, bases, foundations, security barriers and transmission lines directly related to the renewable energy;
  - (bb) disposal of all solid and hazardous waste in accordance with provincial and local waste disposal regulations; and
  - (cc) the stabilisation and re-vegetation of the site with indigenous vegetation to minimise erosion.
- (vi) The Municipality may, in order to minimise erosion and disruption to natural vegetation and habitats, grant permission to the owner to depart from the decommissioning plan in respect of removing landscaping, underground foundations or other underground components, provided these do not cause any pollution.
- (vii) Prior the construction of the renewable energy structure commences, the owner must make financial provision or an alternative reasonable arrangement, to the satisfaction of the Municipality, for protection against failure at any time after site construction has started for the rehabilitation or management of negative environmental impact of decommissioning or of abandonment in the event of the owner being unable to fulfil necessary financial obligations.
- (viii) If the owner fails to remove the structure or its parts in accordance with the requirements of these regulations within 150 days of abandonment or the date of decommissioning or an approved extension date, the Municipality may enter the property and remove the structure and its parts, and recover all removal costs incurred from the owner.
- (ix) If the owner fails to meet the requirements of subparagraph (i), the Municipality may, after written notice to the owner, use all or part of the financial provision or other provision referred to in subparagraph (vii) to rehabilitate or manage the negative environmental impact concerned, or to remove the facility.

**“resort shop”**

**Land use description:** “*resort shop*” means a shop that provides for the daily needs of transient guests of a holiday resort or camping site.

**Development parameters:**

The floor space of a resort shop may not exceed 125 m<sup>2</sup>.

**“restaurant”**

**Land use description:** “*restaurant*” means a commercial establishment where meals and liquid refreshments are prepared or served or prepared and served to paying customers primarily for consumption on the property, and may include licensed provision of alcoholic beverages for consumption on the property, and the option for customers to purchase food for consumption off the property.

**Development parameters:**

Development parameters applicable to “business premises” apply.

**“retirement resort”**

**Land use description:** “*retirement resort*” means flats, group housing or town housing that conforms to the following additional conditions:

- (a) each dwelling unit must be occupied by a retiree or pensioner or by a family of which at least one member is a retiree or pensioner; and
- (b) a full spectrum of frail care and other facilities reasonably associated with a retirement resort may be provided at the retirement resort.

**Development parameters:**

Development parameters applicable to the primary use apply.

**“riding school”**

**Land use description:** “*riding school*” means a place or undertaking for the leasing of horses and riding instructions against payment, and includes the care and stabling of the horses.

**Development parameters:**

Development parameters as applicable to “agriculture” apply.

**“risk activity”**

**Land use description:** “*risk activity*” means an undertaking where the material handled or the process carried out is liable to cause extremely rapid combustion, give rise to poisonous fumes, or cause explosion, and includes major hazardous installations and activities involving dangerous and hazardous substances that are controlled in terms of national legislation.

**Development parameters:**

Development parameters applicable to “noxious trade” apply.

**“rooftop base telecommunication station”**

**Land use description:** “*rooftop base telecommunication station*” means a support structure attached to the roof, side or any part of a building and used to accommodate telecommunication infrastructure for the transmitting or receiving of electronic communication signals.

**Development parameters:**

The general provisions of section 33 of this By-law apply.

**“rural-village”**

**Land use description:** “*rural-village*” means an established private and/or public settlement (such as agri-villages, commonage, missionary, forestry and conservation settlements) of restricted size and that is usually managed by a legal institution that is situated within an agricultural area. The ownership of a property (where a rural-village is located) can be in the form of a Trust, Communal Property Association or Sectional Title.

**Development parameters:**

- (a) The Municipality may require a site development plan for a rural-village.

- (b) The site development plan as approved by the Municipality constitutes the development parameters.
- (c) The provisions for a site development plan in this By-law apply.

**“scrap yard”**

**Land use description:** “*scrap yard*” means a property that is utilised for one or more of the following purposes:

- (a) storing, depositing or collecting of junk, scrap material or articles that have value depending mainly or entirely on the material used during their manufacture;
- (b) the dismantling of second-hand vehicles or machines to recover components or material; and
- (c) the storage or sale of second-hand parts, pipes, poles, steel, wire, lumber yards, tyres, bricks, containers or other articles suited to being left in the open.

**Development parameters:**

Development parameters applicable to “industry” apply.

**“second dwelling”**

**Land use description:** “*second dwelling*” means another dwelling that may, in terms of this By-law, be erected on a land unit where a dwelling house is also permitted; and the second dwelling may be a separate structure or attached to an outbuilding or may be contained in the same structure as the dwelling house; provided that—

- (a) a second dwelling may only be erected in a use zone where provision has been made in column 2 of the table set out in Schedule 1 for a second dwelling as a consent use; and
- (b) the second dwelling must remain on the same land unit as the dwelling house and not be alienated separately.

**Development parameters:**

The development parameters applicable to “dwelling house” apply, together with the following additional parameters:

- (a) the total floor space of a second dwelling may not exceed 150 m<sup>2</sup> including the floor space of all ancillary buildings;
- (b) a second dwelling must be constructed in a style that is similar to the architecture of the main dwelling house;
- (c) a second dwelling that is a separate structure to a dwelling house may not exceed a height of 8 metres from the base to the wall plate in all cases and 10 metres to the top of the ridge of the roof in the case of a pitched roof;
- (d) a second dwelling that is contained within the same building as a dwelling house must be designed so that the building appears to be a single dwelling house; both units may have a ground floor, or one unit may be on the ground floor and the other unit above;
- (e) the existence of a second dwelling may not in itself be sufficient reason for the Municipality to grant an application in terms of planning law to subdivide the land unit containing the dwelling units; and
- (f) the construction of a second dwelling is subject to the Municipality’s municipal services department certifying that adequate services network capacity is available to serve the needs of the second dwelling.

**“service station”**

**Land use description:** “*service station*” means property for the retail supply of fuel, and may include uses such as—

- (a) washing of vehicles, sale of motor vehicles, open air motor vehicle display, service trade, a convenience shop and a restaurant; and
- (b) does not include spray-painting, panel beating, motor repair garage or truck stop.

**Development parameters:**

The development parameters applicable to “shop” apply. The following additional development parameters apply:

- (a) A site development plan must be submitted to the Municipality for its approval. The site development plan must at least address matters pertaining to vehicle access, risk management of fuel pumps and fuel storage areas, screening and minimising any visual intrusion or operational disturbance with adjoining properties.
- (b) Any part of the property of a service station that is used for the repair of motor vehicles, the storage of inoperable motor vehicles or parts of motor vehicles, empty containers including oil drums and packing cases, or any other scrap, must be enclosed by a solid screen wall at least 2 metres high, or contained within a building.
- (c) Any service station must comply with the following access requirements:
  - (i) the width of motor vehicle carriageway crossings over the street boundary, whether one-way or two-way, will be determined by the Municipality; and
  - (ii) the number of permitted carriage way crossings per site, in conjunction with subparagraph (c)(i), will be determined by the Municipality.
- (d) No fuel pump may be erected so that the base or island on which the pump stands is less than 3,5 metres from the nearest street boundary.

**“service trade”**

**Land use description:** “*service trade*” means an enterprise which is—

- (a) primarily involved in the rendering of a service for the local community including the repair of household appliances or the supply of household services;
- (b) not likely to be a source of disturbance to surrounding properties;
- (c) that employs at most 10 people;
- (d) not likely, in the event of fire, to cause extremely rapid combustion, give rise to poisonous fumes or cause explosions;
- (e) that includes laundry, bakery, dairy depot, and similar types of uses; and
- (f) that does not include an abattoir, brick-making site, builder’s yard, sewage works, service station, open air motor vehicle display or motor repair garage.

**Development parameters**

The development parameters applicable to “shop” apply.

**“shelter”**

**Land use description:** “*shelter*” means a unit of accommodation, intended for human occupation with outbuildings as are ordinarily used with a dwelling unit, constructed of any material whatsoever, even though the material may not comply with the standards of durability intended by the National Building Regulations, and includes—

- (a) renewable energy structures for household purposes
- (b) a second dwelling unit ( $\leq 80\text{m}^2$ );
- (c) home occupation;
- (d) a bed and breakfast establishment; and
- (e) home child care.

**Development parameters:**

- (a) It is the sole responsibility of the occupant or owner of the shelter to ensure the structural, habitability, fire resistance or other standards of a shelter.
- (b) The Municipality may instruct any occupant or owner of a shelter to take action to remedy a public safety, health or fire risk.
- (c) The dominant use of the unit must remain residential.
- (d) No noxious trade, risk activity, adult entertainment, adult services or adult shop is permitted in a shelter.
- (e) No activities may be carried out in a shelter which constitute or are likely to constitute a source of nuisance, including the use of equipment that generates excessive noise,

- or any activity that results in the generation of dust, fumes, smoke, or waste material that could be detrimental to health, or requires special waste removal processes.
- (f) The Municipality may, at any stage, call for a cessation of the land use or activity, or impose conditions in order to minimise any potential nuisance to surrounding neighbours or the general public.
- (g) **Floor factor**  
The permitted floor factor on a property is 1.
- (h) **Height**  
A shelter structure's height is restricted to 8 metres to the wall plate in all cases of the shelter, and 10 metres to the ridge of the roof in the case of a pitched roof of the shelter.
- (i) **Building lines**
- (i) Common building lines are at least 1 metre on one side.
  - (ii) If a midblock sewage system is present, a common building line of up to 2 metres may be required by the Municipality.
  - (iii) The street building line is 1 metre, if required by the Municipality.

#### “shooting range”

**Land use description:** “*shooting range*” means an enclosed indoor facility or demarcated outdoor area designed, built or constructed and utilised by a person as a firing range with targets for the usual, regular, and primary activity of controlled firearm practice, shooting competitions, or firearm training on a commercial basis, and—

- (a) may be restricted to certain types of arms, handguns or rifles, or can specialize in certain shooting sports;
- (b) must be constructed or designed in such a way, or where the improvements, size, geography, and vegetation of the area are such that any misdirected shot, that can reasonably be expected to be fired towards the targets, would not reasonably be expected to leave the range or otherwise pose a threat to life or property; and
- (c) may include ancillary activities, buildings and structures.

#### Development parameters:

- (a) The Municipality must require a site development plan for a shooting range.
- (b) The site development plan as approved by the Municipality constitutes the development parameters.
- (c) The provisions for a site development plan in this By-law apply.

#### “shop”

**Land use description:** “*shop*” means property used for the retail sale of goods and services to the public, and—

- (a) includes a retail concern where goods that are sold in the concern are manufactured or repaired, a funeral parlour, flats, liquor store, service trade, clinic, restaurant, office, open air motor vehicle display and the sale of motor vehicles; and
- (b) does not include a hotel, industry, supermarket, motor repair garage, service station, adult entertainment, adult services, or an adult shop.

#### Development parameters:

The following development parameters apply:

- (a) **Floor factor**  
The maximum floor factor on the land unit is 1.
- (b) **Coverage**  
The maximum coverage of all buildings on a land unit is 75%.
- (c) **Height**
  - (i) The maximum height of a building is 12 metres to the top of the roof.
  - (ii) The general provisions regarding earth banks and retaining structures in this By-law apply.

- (d) **Street centreline setback**  
The Municipality may require a street centreline setback, in which case all buildings or structures on the land unit must be set back 8 metres from the centre line of the abutting public street or streets.
- (e) **Street boundary building line**  
The street boundary building line is 0 metres, subject to the following conditions:
- (i) the street centreline setback restriction in subparagraph (d);
  - (ii) minor architectural and sunscreen features may project beyond the street boundary building line provided that such features do not project more than 250 millimetres beyond the street boundary; and
  - (iii) for service stations, the street boundary building line is 5 metres subject to the general building line encroachments in this By-law.
- (f) **Common boundary building lines**  
The common boundary building lines are 0 metres.
- (g) **Canopy projection**  
The Municipality may approve a canopy projection over the street boundary in accordance with the following conditions:
- (i) the canopy may not project nearer than 500 millimetres to a vertical plane through the kerb line or proposed kerb line;
  - (ii) no portion of a canopy projection may be less than 2,8 metres above the pavement;
  - (iii) the Municipality may lay down more restrictive requirements relating to the dimensions, design and materials of the canopy; and
  - (iv) the owner must enter into an encroachment agreement with the Municipality in the case of a canopy projection.
- (h) **Street corners**
- (i) The Municipality may require the owner of a building to be situated at a public street corner, and where the Municipality considers the street corner to be significant, to incorporate in the building, architectural features that focus visual interest on the corner and emphasise the importance of pedestrian movement around the corner. The architectural features may include building cut-offs, walk-through covered arcades, plazas or other elements.
- (j) **Parking and access**  
Parking and access must be provided on the land unit in accordance with this By-law, except in a case where the Municipality has approved alternative parking supply under subsection 44.(1).
- (k) **Loading**  
Loading bays must be provided on the land unit in accordance with this By-law.
- (l) **Screening**  
The Municipality may require screening in accordance with this By-law.
- (m) **Repair or manufacturing concern in a shop**  
The floor space relating to any manufacturing or repair concern in a shop may not comprise more than 40% of the floor space of the shop.
- (n) **Refuse room**  
The Municipality may require a refuse room to be provided on the land unit in accordance with this By-law.

**“smallholding”**

**Land use description:** “*smallholding*” means an extensive landholding on which small-scale agricultural activities may take place, but are primarily places of residence and includes a dwelling house and a second dwelling.

**Development parameters:**

Development parameters applicable to “agriculture” apply, except that the following building lines apply:

except for a landholding, not larger than 5 hectares in extent, the building lines are 10 metres from any boundary.

- (a) 10 metres from any boundary in respect of properties smaller than or equals to 5 hectares; and
- (b) 30 metres from any boundary in respect of properties larger than 5 hectares.
- (c) Any newly created smallholding areas must be situated within the urban growth area of a town.

#### **"sports and recreation centre"**

**Land use description:** *"sports and recreation centre"* means an outdoor or indoor sports and recreation facility which may be public or privately owned and which may include sports grounds and fields, golf courses, a sports stadium, as well as ancillary and subservient facilities and amenities like a clubhouse with a restaurant and shop, gymnasium, ablution facilities, stores, and related administrative buildings.

#### **Development parameters:**

- (a) The Municipality must require a site development plan for a sports and recreation centre.
- (b) The site development plan as approved by the Municipality constitutes the development parameters.
- (c) The provisions for a site development plan in this By-law apply.

#### **"supermarket"**

**Land use description:** *"supermarket"* means a shop having a total floor space in excess of 400 m<sup>2</sup>, where a range of goods, including foodstuff and household goods, is offered for sale on a predominantly self-service basis.

#### **Development parameters:**

Development parameters applicable to "shop" apply.

#### **"telecommunication infrastructure"**

**Land use description:** *"telecommunication infrastructure"*—

means any part of the infrastructure of a telecommunication network for radio or wireless communication;

- (a) includes voice, data and video telecommunications, including antennae, any support structure, equipment room, radio equipment or optical communications equipment (laser or infra-red);
- (b) includes ancillary structures needed for the operation of telecommunication infrastructure; and
- (b) does not include fibre optic installations and point-to-point copper (cable) installation and rooftop base telecommunication stations.

#### **Development parameters:**

As determined by the Municipality.

#### **"tourist accommodation"**

**Land use description:** *"tourist accommodation"* means a harmoniously designed and built holiday development, used for holiday or recreational purposes, whether in private or public ownership, that—

- (a) consists of a single enterprise that provides overnight accommodation by means of short-term rental or time sharing only;
- (b) may include the provision of a camping site, caravan park, chalets or mobile home park, resort shop, private or public roads; and
- (c) does not include a hotel or wellness centre.

**Development parameters:**

- (a) The parameters of the existing lawful development apply as land use restrictions regarding to land which is deemed to be zoned as a resort zone with effect from the date of commencement of the Land Use Planning Act.
- (b) When land is rezoned to Resort Zone I, the Municipality must impose conditions regarding to the density, layout, landscaping, and building design.
- (c) A site development plan must be submitted to the Municipality for its approval, clearly indicating the position of all structures, stands, services and internal roads.
- (d) Provided that if a hotel or wellness centre is approved as a consent use within Resort Zone I, the following additional conditions apply:
  - (i) rooms may not be alienated by means of sectional title;
  - (ii) the hotel may not accommodate more than 50% of the number of accommodation units;
  - (iii) the architectural design of the hotel or wellness centre must conform to that of the rest of the resort; and
  - (iv) the maximum height for the hotel or wellness centre is 8 metres to the wall plate in all cases and 10 metres to the top of the roof in the case of a pitched roof.

**“tourist facilities”**

**Land use description:** “*tourist facilities*” means amenities for tourists or visitors and—

- (a) includes lecture rooms, restaurants, gift shops, restrooms, farmers’ market and recreational facilities; and
- (b) does not include an off-road trail, a hotel, wellness centre; or tourist accommodation.

**Development parameters:**

Development parameters applicable to “agriculture” apply.

**“town housing”**

**Land use description:** “*town housing*” means a row or group of linked or attached dwelling units, planned, designed and built as a harmonious architectural entity where every dwelling unit has a ground floor and dwelling units may be cadastrally subdivided.

**Development parameters:**

The development parameters of “group housing” apply, provided that:

- (a) **Density**  
The maximum gross density on a town housing site is 60 dwelling units/hectare.
- (b) **Open space**  
The open space requirements for group housing do not apply to town housing.
- (c) **Coverage**  
The maximum coverage for all buildings on a land unit is 75%.
- (d) **Height**  
The height of dwelling units may not exceed 8 metres to the wall plate in all cases, and 10 metres to the ridge of the roof in the case of a pitched roof.

**“transport use”**

**Land use description:** “*transport use*” means the use of land, a building or structure for the operation of a service for the transportation of goods (including liquids and gases) or passengers by means of rail, road, sea or pipeline and—

- (a) includes the use of that land, building or structure for the purpose of a harbour, railway station, bus depot or taxi interchange, and a transport undertaking;
- (b) includes a public and/or private undertaking including a railway station, bus depot, multiple parking garage, taxi rank, tuck shop, restaurant, public transport interchange, rooftop base telecommunication station, harbour and ancillary purposes; and
- (c) does not include an airport, airfield; or helicopter landing pad.

**Development parameters:**

Development parameters applicable to “business premises” apply.

**“truck stop”**

**Land use description:** “*truck stop*” means a facility with direct access from a freeway, inner city road or major transport route which—

- (a) provides a range of rest, service and fuelling facilities for heavy duty, long haul vehicles and trucks: and
- (b) does not include accommodation.

**Development parameters:**

Development parameters are determined by the Municipality by means of conditions of approval for a truck stop as a consent use, provided that—

- (a) the Municipality must require a site development plan to be submitted for its approval; and
- (b) the site development plan must at least address matters pertaining to vehicle access, placement of overnight parking and ablution facilities or rest rooms, screening and minimising any visual intrusion or operational disturbance to adjoining properties.

**“truck stop accommodation”**

**Land use description:** “*truck stop accommodation*” means overnight accommodation by means of short-term rental that specifically caters for the needs of truck drivers and may include rooms, ablution facilities, basic food preparation facilities and communal areas for relaxation and is ancillary to a truck stop.

**Development parameters:**

- (a) The Municipality must require a site development plan to be submitted for its approval.
- (b) The height of the accommodation facility may not exceed 8 metres to the wall plate in all cases, and 10 metres to the ridge of the roof in the case of a pitched roof.

**“tuck shop”**

**Land use description:** “*tuck shop*” means a small retail concern that stocks a range of snacks, food, candy, soft drinks, tobacco products, newspapers and magazines and serves the needs of the public who frequent the premises.

**Development parameters:**

- (a) A tuck shop may not exceed 25m<sup>2</sup>.
- (b) The Municipality may require a site development plan to be submitted for its approval.

**“urban agriculture”**

**Land use description:** “*urban agriculture*” means the cultivation of crops, on relatively small areas within the urban area or edge, for own consumption or sale in neighbouring markets; provided that cultivation of a garden by an occupant is not regarded as urban agriculture for the purpose of this By-law.

**Development parameters:**

As determined by the Municipality.

**“utility service”**

**Land use description:** “*utility service*” means a use or infrastructure that is required to provide engineering and associated services for the proper functioning of urban development and—

- (a) includes a water reservoir and purification works, electricity substation, storm water retention facilities, and a waste-water pump station and treatment works, rooftop base telecommunication station and freestanding base telecommunication station; and
- (b) does not include renewable energy structures or transport use; and
- (c) provided that a road is not regarded as a utility service.

**Development parameters:**

As determined by the Municipality.

**“wall of remembrance”**

**Land use description:** “*wall of remembrance*” is a wall in a cemetery, crematorium, private open space, or public open space provided for the placement of inscribed tablets commemorating deceased persons.

**Development parameters:**

As determined by the Municipality.

**“warehouse”**

**Land use description:** “*warehouse*” means a building used primarily for the storage of goods, and—

- (a) includes property used for business of a predominantly wholesale nature, and
- (b) does not include property used for business of a predominantly retail nature.

**Development parameters:**

Development parameters applicable to “industry” apply.

**“wellness centre”**

**Land use description:** “*wellness centre*” means a business that provides a variety of services for the purpose of improving health, beauty and relaxation through personal care treatments such as massages, rehabilitation, exercise programmes, diet, instruction on wellness, life coaching, and facials and includes—

- (a) facilities like saunas, pools, steam rooms, gymnasiums, treatment rooms, relaxation areas and whirlpools;
- (b) accommodation where guests may reside; and
- (c) the provision of meals to guests.

**Development parameters:**

Development parameters applicable to “tourist accommodation” apply.

**“winery”**

**Land use description:** “*winery*” means a place where wine is made and may include—

- (a) a brewery, a selling point to the general public, wine-tasting and/or beer-tasting area.

**Development parameters:**

Development parameters applicable to “agriculture” apply in agricultural areas and “industry” apply in industrial areas.

### SCHEDULE 3

#### OVERLAY ZONES APPROVED IN TERMS OF SECTION 18

##### 1. SUBDIVISIONAL AREA OVERLAY ZONE

###### 1.1. General purpose of Subdivisional Area Overlay Zone

*The subdivisional area overlay (SAO) zoning designates land for future subdivision with development rights by providing development directives through specific conditions as approved in terms of this By-law. The SAO zoning confirms the principle of development and acceptance of future subdivision of land; but not the detailed layout that will be determined when an actual application for subdivision is approved.*

###### 1.2. Use of the property

1.2.1 Land zoned as a subdivisional area may be subdivided as contemplated in the Planning By-law.

###### 1.3. Development parameters

1.3.1. When the municipality approves a subdivisional area overlay zone, it must impose conditions making provision for at least—

- (a) density requirements;
- (b) main land uses and the extent of the uses; and
- (c) a detailed phasing plan or a framework including—
  - (i) main transport routes;
  - (ii) main land uses;
  - (iii) bulk infrastructure;
  - (iv) requirements of organs of state;
  - (v) public open space requirements; and
  - (vi) physical development constraints.

##### 2. SPECIAL PLANNING AREA OVERLAY ZONE

###### 2.1. General purpose of special planning area overlay zone

*The general purpose of the special planning overlay zone is to provide for a package of plans mechanism to plan and manage the development of large or strategic urban development areas with a greater degree of flexibility. The package of plans mechanism is a phased process of negotiation, planning and approvals, where appropriate levels of planning detail are approved together with conditions for those approvals.*

*A special planning area overlay zone is generally created in respect of an application that involves a mixed-use development proposal or where the development does not generally comply with the development parameters of the applicable land uses of this By-law.*

###### 2.2. Use of the property

2.2.1. Primary uses are as stipulated in the conditions of approval imposed in terms of the Planning By-Law.

2.2.2. Consent uses are as stipulated in the conditions of approval imposed in terms of the Planning By-Law.

### 2.3. Development parameters

- 2.3.1. The Municipality must require a package of plans as set out in section 2.3.4 of Schedule 3 to be submitted for areas zoned as special planning area overlay zones.
- 2.3.2. The applicant must, during pre-application discussions with the Municipality, ascertain whether a package of plans procedure has to be followed.
- 2.3.3. The development parameters of the lowest order package of plans as contemplated in section 2.3.2 of Schedule 3 and as approved by the Municipality are the development parameters of the special planning overlay zone applicable to the property concerned.
- 2.3.4. The package of plans consists of all of the following components that are listed in a hierarchy from higher-order to lower-order plans, and the lower-order plans must be in compliance with the higher-order plan:
- (a) **Contextual framework**
    - (i) The contextual framework lays down broad land use policy for the development and the surrounding area.
    - (ii) It may include principles or heads of agreement summarising the general obligations of the Municipality and the developer in relation to the development.
    - (iii) The contextual framework may be prepared by the Municipality, or by an owner or development agency under supervision of the Municipality, and may not be in conflict with a spatial development framework or structure plan approved by the Municipality.
  - (b) **Development framework**
    - (i) The development framework must identify overall policy, broad goals, and principles for development within the development.
    - (ii) The development framework must identify the range of uses, general spatial distribution of uses, major transport and pedestrian linkages, infrastructure and any limits to development within the development, including but not limited to density and floor space.
  - (c) **Precinct plans**
    - (i) Precinct plans apply to specific areas within the development framework that have common features, functional relationships or phasing requirements.
    - (ii) There may be several precinct plans that make up a development area.
    - (iii) A precinct plan must describe in more detail the development objectives and intentions for a specific area in the development, as well as principles for urban form, land use, pedestrian links, traffic movement, floor space and environmental management.
  - (d) **Subdivision plans**
    - (i) Subdivision plans, if required, must be processed in terms of planning law to establish new cadastral boundaries and to facilitate the transfer of land units.
    - (ii) Subdivision plans may be approved at any stage after the development framework has been approved, and the provisions of section 17.2 apply to such plans.
  - (e) **Site development plans**
    - (i) Site development plans depict more detailed design and development provisions for one or more land units within a development.
    - (ii) These provisions may include details relating to land use, floor space, building lines, height, parking requirements, municipal services and landscaping, as well as details relating to the position and appearance of buildings, open space, pedestrian links and traffic movement.

- (iii) A site development plan may be required before or after a subdivision plan, and must provide for the information as required for a site development plan in terms of this By-law.
  - (f)* **Building plans**
    - (i) Building plans contain detailed specifications as required by the National Building Regulations.
    - (ii) Building work may only commence once building plans have been approved by the Municipality.
- 2.3.5. The Municipality may require all or only some of the components of the package of plans to be applied in respect of a particular development.
- 2.3.6. The Municipality may require that the area covered by a contextual framework must extend beyond the land under consideration if, in its opinion, the proposed development will have a wider impact, and the Municipality may determine the extent of that area.
- 2.3.7. In approving a special planning area overlay zone, the Municipality must determine the total floor space or density permitted within the development as a condition of approval.
- 2.3.8. The allocation of floor space must take into account the carrying capacity of internal and external infrastructure including roads and utility services, and any urban design principles approved by the Municipality as part of a rezoning or contextual framework.
- 2.3.9. The approved floor space may remain as “floating floor space” assigned to the overall development for later allocation, or may be assigned to particular precincts when a precinct plan is approved; and in either case must be allocated to individual subdivisions or site development plans.
- 2.3.10. When a special planning area overlay zone and a package of plans is required in terms of this By-law, the relevant components must be submitted to the Municipality for its approval before any development on a land unit can commence, provided that—
- (a)* the development may not be refused if it is consistent with the development parameters of a base zone, overlay zone, or condition of approval; and
  - (b)* the Municipality may require amendments to the detail of the site development plan to address reasonable concerns relating to access, parking, architectural form, urban form, landscaping, environmental management, engineering services or similar concerns.
- 2.3.11. The general provisions contained in this By-law apply regarding to the site development plans.
