Variances for 10% above and below YTD budget have been identified. The variances were due to the following:

Sale of Goods and Rendering of Services: The variance is 37.76% above YTD budget. The variances are mainly due to actuals for revenue from camping fees and building fees that are more than expected.

Agency Services: The variance is 17.58% below YTD budget. This is due to the seasonal nature of for example motor registration fees.

Interest earned from Current and Non-Current Assets: 602.5% above YTD budget. This is due to additional income from interest earned on investments. This line item is not budgeted excessively as interest is dependent on the balance of the bank accounts. Adjustments will be made during the February adjustment budget process.

License and Permits: No transactions to date. This is due to the slow implementation of the municipal by-laws. With the appointment of the manager protection services, this is expected to increase in the coming months.

Operational Revenue: The variance is 93.04% above YTD budget. Deposit for Sale of Land has been received during December 2024.

Surcharges and Taxes: No transactions to date

Fines, penalties and forfeits: Fines issued is 73.38% below YTD budget. The service provider is on site and operational. The cameras are operational. Actuals are expected to increase throughout the year. The new manager has already put measures in place to improve the performance of this revenue stream. Revenue is expected to increase over the remaining period.

Transfers and Subsidies Operational: The variance is 42.29% above YTD budget due to various grants received. Equitable Share received in December 2024.

Operational Revenue (Non-Exchange): This variance is 89.37% above YTD budget due to availability charges. Availability fees charged exceed the budget. This will be adjusted accordingly with the February adjustment budget process.

Other Gains: No transactions to date.

Figure 11: Property Rates Reconciliation

This month's reconciliation includes changes per the supplementary valuation roll.

The differences between the VR and Billing system will always be there until the tool is updated to cover the special rebates the municipalities have for different properties. This has been reported to PT and should be amended by NT. PT undertook to discuss this with NT and provide the municipality with feedback.

This table reflects the operating budget (Financial Performance) in the standard classifications which are the Government Finance Statistics Functions and Sub-functions. These are used by National Treasury to assist the compilation of national and international accounts for comparison purposes, regardless of the unique organisational structures used by the different institutions. The main functions are Governance and administration; Community and public safety; Economic and environmental services; and Trading

services. It is for this reason that Financial Performance is reported in standard classification, Table C2, and by municipal vote, Table C3.

Table C5 consists of three distinct sections:

• Appropriations by vote:

- Which are the budget allocations that are approved by Council in the annual and adjustment budgets (similar to the expenditure by vote in Table C3)
- If any of these annual budgets (either for Council as a whole or any individual vote) are overspent then unauthorised expenditure will have occurred. There was no unauthorised expenditure on any vote.

• Standard classification:

Similar to Table C2 this portion reflects the capital budget in the standard classifications
which are the Government Finance Statistics Functions and Sub-functions. These are used
by National Treasury to assist the compilation of national and international accounts for
comparison purposes, regardless of the unique organisational structures used by the
different institutions.

Funding portion:

- This section reflects how the capital budget has been funded by the different sources of capital revenue.
- It is very important that national government grants are fully spent by year end otherwise they will have to be repaid to the national revenue fund.
- Provincial grants should also be utilised but should any unspent portion remain then the provincial departments do not at this time require repayment.
