Variances for 10% above and below YTD budget have been identified. The reasons for the variances are as follows:

**Sale of Goods and Rendering of Services:** The variance is 23.06% above YTD budget. The variances are mainly due to actuals for revenue from camping fees and building fees that are more than expected.

**Interest earned from Current and Non-Current Assets:** 179.33% above YTD budget. This is due to additional income from interest earned on investments. This line item is not budgeted excessively as interest is dependent on the balance of the bank accounts. The budget has been adjusted with the adjustment budget process.

**License and Permits:** No transactions to date. This is due to the slow implementation of the municipal by-laws. With the appointment of the manager protection services, this is expected to increase in the coming months.

**Operational Revenue:** The variance is 77.13% above YTD budget. Deposit for Sale of Land has been received during December 2024. A correcting journal will be processed to Gains on sale of assets.

#### Surcharges and Taxes: No transactions to date

**Operational Revenue (Non-Exchange):** This variance is 97.46% above YTD budget due to availability charges. Availability fees charged exceed the budget.

Other Gains: No transactions to date.

Gains on disposal of Assets: No transactions to date. Correcting journal to be processed.

**Inventory Consumed:** 11.48% below YTD budget mostly due to water meters that should be purchased and spending on fuel that is lower than anticipated.

**Transfers and Subsidies:** The variance is 84.37% below YTD budget. This is based on affordability and demand for donations. This is low due to no funding being requested for transfer to the tourism bureau.

**Operational Costs:** The variance is 25.01% below YTD budget mostly due to cost for the Regional Landfill site not yet incurred.

#### 1.3.3.6 Property Rates Reconciliation

#### Figure 11: Property Rates Reconciliation

This month's reconciliation includes changes per the supplementary valuation roll.

The differences between the VR and Billing system will always be there until the tool is updated to cover the special rebates the municipalities have for different properties. This has been reported to PT and should be amended by NT. PT undertook to discuss this with NT and provide the municipality with feedback. The municipality is waiting on the new template to address the differences.

This table reflects the operating budget (Financial Performance) in the standard classifications which are the Government Finance Statistics Functions and Sub-functions. These are used by National Treasury to assist the compilation of national and international accounts for comparison purposes, regardless of the unique organisational structures used by the different institutions. The main functions are Governance and administration; Community and public safety; Economic and environmental services; and Trading services. It is for this reason that Financial Performance is reported in standard classification, Table C2, and by municipal vote, Table C3.

Table C5 consists of three distinct sections:

- Appropriations by vote:
  - Which are the budget allocations that are approved by Council in the annual and adjustment budgets (similar to the expenditure by vote in Table C3)
  - If any of these annual budgets (either for Council as a whole or any individual vote) are overspent then unauthorised expenditure will have occurred. There was no unauthorised expenditure on any vote.
- Standard classification:
  - Similar to Table C2 this portion reflects the capital budget in the standard classifications which are the Government Finance Statistics Functions and Sub-functions. These are used by National Treasury to assist the compilation of national and international accounts for comparison purposes, regardless of the unique organisational structures used by the different institutions.
- Funding portion:
  - This section reflects how the capital budget has been funded by the different sources of capital revenue.
  - It is very important that national government grants are fully spent by year end otherwise they will have to be repaid to the national revenue fund.
  - Provincial grants should also be utilised but should any unspent portion remain then the provincial departments do not at this time require repayment.
