The municipality has an obligation in terms of section 13 of the MFMA to establish an appropriate and effective cash management and investment policy.

The purpose of this policy is to establish a cash management and investment framework for the Municipality and to set out the objectives, policies, statutory requirements and guidelines. This includes defining levels of risk considered prudent for investing surplus funds.

The Municipal Manager is responsible for the administration of all investment procedures and must take all reasonable steps to ensure investments are being managed in accordance with any auditing requirements as well as any legal requirements including as prescribed in the Local Government: Municipal Finance Management Act, 2003 and in particular Section 13 of the Act.

8.1.2. The Municipal Manager may delegate the duties attached to investments as per paragraph 5 of this policy.

8.2. INVESTMENT ETHICS

- 8.2.1. All functionaries in the investment management process must act with fidelity, honesty, integrity and in the best interest of the municipality and must seek, within the spheres of influence of the functionaries, to prevent any prejudice to the investments of the municipality.
- 8.2.2. No functionaries in the investment management process may use their position or privileges of, or confidential information obtained as, functionary in the process for personal gain or to improperly benefit another person. Interest rates quoted by one institution should never be disclosed to another.
- 8.2.3. No person contracted by the municipality for the purpose of investments or no person submitting quotes, bids or any other means of competitive submissions may, either directly or through a representative or intermediary promise, offer or grant any reward, gift, sponsorships, loan, bursary, favour or hospitality to –
- 8.2.3.1. any official, spouse or close family member of such official or spouse; and
- 8.2.3.2. any councillor, spouse or close family member of such councillor or spouse.
- 8.2.4. The Municipal Manager must promptly report to the Mayor and National Treasury any alleged contravention of the above and may make recommendations as to whether the alleged offending party should be listed on the National Treasury's database of persons prohibited from doing business with the public sector. Any such report by the Municipal Manager must give full details of the alleged breach and a written response from the alleged offending party, as well as proof that the alleged offending party received the allegations in writing and were given at least 7 (seven) working days to respond, in writing, to the allegations.
- 8.2.5. Any sponsorship promised, offered or granted to the municipality must promptly be disclosed to the National Treasury.
- 8.2.6. Investments by a municipality on behalf of a municipality –
- 8.2.6.1. Must be made with such judgment and care, under the prevailing circumstances, as a person of prudence, discretion and intelligence would exercise in the management of that person's own affairs;

8.2.6.2. May not be made for speculation but for investment; and

8.2.6.3. Must in the first instance be made with primary regard being to the probable safety of the investment, the second instance to the liquidity needs of the municipality or entity and lastly to the probable income derived from the investment.

8.3. INVESTMENT OBJECTIVES

8.3.1. Objective 1 – Security

The first and foremost objective for investments is the preservation and safety of the principal amount invested. It is a requirement that investments may only be made with institutions with a credit-worthy rating of F1 (Fitch) and better. Any investments made must be liquidated if an institution's credit-worthy rating falls below the level of F1 (Fitch).

8.3.2. Objective 2 -Liquidity

The cash – flow budget must be used as an instrument in determining liquidity needs. Other factors such as the payment runs for creditors, dates for salary and statutory payments and dates for debt repayments must also be brought into account to ensure cash requirements, and resultant investment periods, are being calculated to such an extent that maximum yield on surplus cash can be obtained.

8.3.3. Objective 3 -Yield

It is necessary to ensure optimal yield on the municipality's investments, but a higher yield should never increase the risk of preservation and safety of the principal amount invested or not meeting cash – flow requirements. Where an institution has a sudden increase above the average market increase in investment returns, the Municipal Manager must determine whether the institution is in liquidity or financial problems, and in such an instance liquidate the investments with such an institution as soon as possible.

8.4. TYPES OF INVESTMENT ACCOUNTS

8.4.1. Cash reserves (working capital) at year end to be determined as follows:

The following funds, reserves, liabilities and provisions must be cash-backed always:

1. Unspent conditional grants;
2. Housing development fund;
3. Unspent loans;
4. Loan repayments due;
5. Provision for environmental rehabilitation;
6. Employee benefit obligation;
7. Consumer deposits;
8. Capital replacement reserve; and Working capital (to be equal to budgeted fixed operating expenditure divided by 12).

Where this section of the policy may affect comparative information in the AFS, the policy is applicable to the comparative period as well.

8.4.2. Where a Trust Deed prescribes how the trust money is to be invested, the prescriptions in the Trust Deed will prevail over this policy.

8.4.3. It is a general principle, the higher the investment the better the yield, and for this purpose the Municipal Manager should combine as much cash as possible, and invest it together.

8.5. APPROVED INVESTMENTS

8.5.1. Investments should be structured according to the best yield available and the liquidity needs of the municipality. This can include Call Deposits and Fixed Term Deposits subject to paragraph 8.3.

8.6. QUALIFYING INSTITUTIONS

8.6.1. It is of utmost importance that the investments only be placed with creditworthy institutions with a credit – rating of F1 (Fitch) and better

8.6.2. Fitch ratings to be obtained of all investment institutions before a financial institution may be considered for investing funds.

8.6.3. Ratings must be updated at least annually or when there has been structural change in the market or at the particular institution.

8.6.4. The optimal combination of the most favourable rated institution and the institution offering the best returns for the investment sought, should be the determining factor when choosing the institution.

- 8.6.5. Only deposits with banks registered in terms of the Banks Act, 1990 (Act 94 of 1990) are permitted.

8.7. INVESTMENT DIVERSIFICATION

8.7.1. Without limiting the Municipal Manager to any specific amount or percentage of investments, it is hereby established that investments made by the municipality should be diversified as much as possible between different institutions, maturity dates and types, but nothing prevents the Municipal Manager from investing more cash with an institution than by another institution with due regards to the standard of care and objectives set in this policy.

8.7.2. Having determined that funds are available for investment and the maximum period for which the funds may be invested, the CFO (or his delegated nominee in the treasury and budget section) needs to consider the manner in which the investments are placed. As rates can vary according to the money market perception related to the term of the investment, there is merit in obtaining quotes for periods within the maximum determined.

8.8. COMPETITIVE SELECTION OF BIDS OR OFFERS

8.8.1. In establishing where investments must be made, at least 3 (three) written quotations must be obtained by the Municipal Manager (or his/her delegated nominee in terms of the delegation register) from any of the institutions listed in paragraph 8.6 above. The Municipal Manager (or his/her delegated nominee in terms of the delegation register) may not divulge interest rates to other institutions during the quotation process.

8.8.2. Where funds are held in current account, it is possible and good practice to negotiate deposits at more beneficial rates, e.g. call deposits.

8.8.3. These rates can normally be bettered by fixed terms investments. The over – riding principle is that funds in the current account must be kept to the minimum, subject to relevant cash flow requirements.

8.9. CALL AND FIXED DEPOSIT PROCEDURES

- 8.9.1. Quotations should be invited from at least three financial institutions for the term for which the investment is to be placed. In the event of one of the financial institutions offering a more beneficial rate for an alternative term, the institutions invited to quote should be approached for their rates on the alternative term.
- 8.9.2. Requests for written quotations may be obtained telephonically
- 8.9.3. The person responsible for calling for quotations from institutions should note the name of the institution and the terms and interest applicable, e.g. whether interest is payable monthly or on maturity.
- 8.9.4. Having obtained the necessary number of quotations, the decision needs to be made regarding the best terms offered and the institution with who the investment is to be placed. With due regard to the investment principles, it is customary to accept the best offer made (but subject to the total amount already invested with such institution) and no further negotiations are to be entered into with any of the persons who have tendered their investment rates and terms in an effort to try and push up one against the other.
- 8.9.5. Having been invited to quote on a particular package, institutions should be advised that they must offer their best rate when they respond and that no further negotiation or discussion will be entered into.
- 8.9.6. The above procedure should be followed whether placing one's monies on a fixed investment or on a call basis.
- 8.9.7. As a standard practice investment are only made directly with the Banks and not through intermediaries.
- 8.9.8. Once a schedule of investment options has been prepared a recommendation should be made to the CFO for approval.
- 8.9.9. The necessary documents for investing purposes should be completed and the persons involved with the investment should preferably not be the same two signatories that authorise the cheque or electronic funds transfer for payment.
- 8.9.10. An investment register should be maintained, defining the following detail
 - 8.9.10.1. Institutions, per institution;
 - 8.9.10.2. Institution percentage held as a percentage of the total municipal investment portfolio;

- 8.9.10.3. Type of investment;
